## Facts & Trends

# 2008

Office of Institutional Studies and Policy Analysis

## Preface

*Facts & Trends* is designed as a reference document with basic enrollment, admissions, financial aid, persistence, graduation and outcomes, research, faculty, staff, degree, semester credit hour and financial information for the nine academic and six health-related institutions and The University of Texas System as a whole. Where available, data are reported for the most recent six years so that trends can be identified.

Data reported by the U. T. System institutions to the Texas Higher Education Coordinating Board have been used extensively in this publication. However, these data may vary somewhat from information presented and used internally by individual institutions due to differences in management information systems, data definitions, and intended application.

In addition, several other sources were used to compile the tables in this document, including:

- The University of Texas System *Accountability and Performance Report 2007-2008*:

## General Analysis – Admissions and Financial Aid

U. T. System is committed to access and affordability for college bound students in Texas. Admit rates, the percent of students who applied and were admitted, are over 60% at most academic institutions. Financial assistance is available to students with need through tuition set asides and guaranteed tuition programs. Since tuition deregulation, students and faculty are increasingly involved in the tuition setting process and are developing flexible tuition plans that meet the needs of their institution and community.

### Admission Trends

Overall, U. T. System academic institutions (excluding U. T. Brownsville) received 59,621 applications, admitted 36,665 students and enrolled 21,557 first-time undergraduates in fall 2007. The admit rates ranged from 49.4% at U. T. Dallas to 97.9% at U. T. Permian Basin, and the ratio of admits to those who actually enrolled ranged from 48.1% at U. T. El Paso to 61.5% at U. T. Pan American.

The percent of first-time enrolled students from Texas who were in the top 10% of their high school class at U. T. Austin remained around 71% in fall 2007. At other U. T. System institutions, the top 10% represented one third or less of first-time enrolled students from Texas.

From fall 2003 to fall 2007, average SAT test scores for entering freshmen increased at six U. T. System institutions (U. T. Austin, U. T. Dallas, U. T. El Paso, U. T. Pan American, U. T. San Antonio, U. T. Tyler) , while ACT test scores increased at two institutions (U. T. Dallas and U.T. Pan American).

Average GRE test scores for entering graduate students also increased at U. T. Austin, U. T. Pan American, U. T. Permian Basin, U. T. San Antonio and U. T. Tyler. Average GMAT scores increased at U. T. Austin and U. T. Dallas. LSAT test scores increased slightly at U. T. Austin.

### Financial Aid

For fall 2007, the average total academic cost for resident undergraduates at academic institutions ranged from \$2,775 at U. T. Tyler to \$4,355 at U. T. Dallas. For health institutions, the average total academic cost for resident undergraduates ranged from \$1,270 at M. D. Anderson to \$3,987 at the HSC-San Antonio.

For academic year 2006-07, the U. T. System average total academic cost was \$6,573. Almost half of full-time undergraduate students received need-based grant aid (47.8%). For these students, the net cost (after aid) was \$1,454, a discount of almost 78%. Applying this amount of aid across all full-time undergraduate students, the average net cost would have been \$4,127, a discount of 37%.

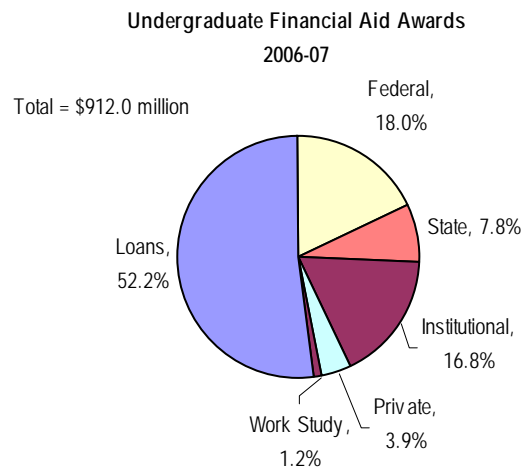

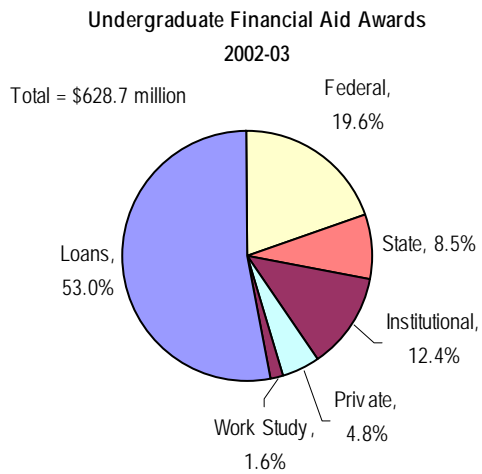

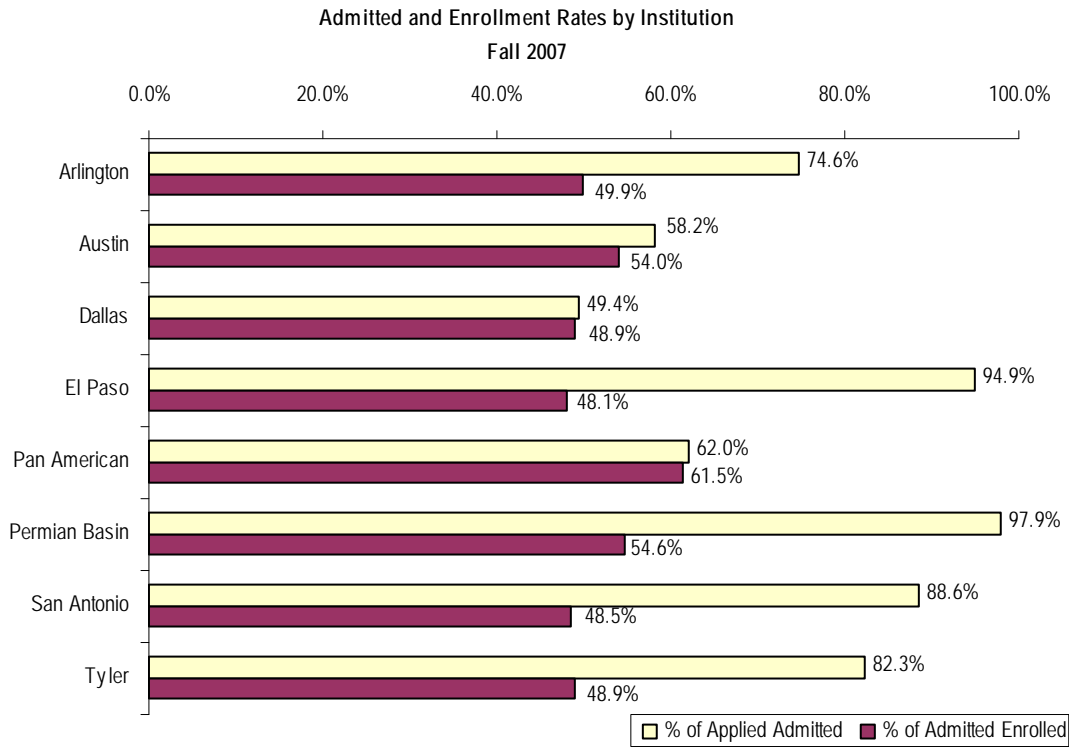

The number and total amount of undergraduate financial aid continues to increase at all U. T. System academic institutions. In 2002-03 there were 213,789 undergraduate awards totaling around \$628.7 million. In 2006-07 there were 261,937 awards totaling over \$912 million, an increase of 22.5% and 45.1%, respectively.

From 2002-03 to 2006-07, as a result of tuition set asides and increasing institutional support,

- the number of institutional awards increased from 44,881 to 72,485, an increase of 61.5%
- the total amount of institutional awards increased from \$77.9 million to \$153.4 million, an increase of 97.1%
- institutional awards, as a percent of all financial aid increased from 12.4% to 16.8%

Notes:

Applicant totals may vary from an institution's internal reports because of different definitions used by the Texas Higher Education Coordinating Board to count applicants.

Applied and admitted data are not available for U. T. Brownsville because most students matriculate through Texas Southmost College. First-time Undergraduate enrollment and TX Top 10% data were provided by UTB and include students enrolled at TSC. A data reporting error resulted in TX Top 10% Enrolled being underreported at U. T. San Antonio in fall 2005. Supplemental data from U. T. San Antonio indicate that 383 TX Top 10% students enrolled, comprising 8.9% of TX first-time undergraduate enrollment.

Prior to fall 2006, the applied and admitted headcounts at U. T. Tyler may have included transfer applications. Reports to the Coordinating Board were corrected in fall 2006 to only include first-time undergraduate applications.

N/A - Data not available.

Note:  
 ACT and Scholastic Aptitude Test (SAT) are national standardized college entrance exams administered through ACT, Inc. (ACT) and The College Board (SAT). ACT averages at U. T. Dallas are based on much smaller numbers of students than SAT averages.

Notes:

The total academic costs at U. T. Institutions represent the sum of all statutory tuition, designated tuition, and board-authorized tuition (where applicable), along with mandatory fees which now include college and course fees.

Total academic costs for U. T. Austin and U. T. Brownsville in fall 2005 are based on flat rate tuition. Prior to fall 2005, traditional and flat rate tuition were weighted to calculate average costs at U. T. Austin.

Cost information is derived from actual fee bills for resident undergraduate students enrolled for 15 semester credit hours.

Notes:

<sup>1</sup> Total academic costs represent the sum of all statutory tuition, designated tuition, and board-authorized tuition (where applicable), along with mandatory fees which now include college and course fees. Academic cost information is derived from actual fee bills for resident undergraduate students enrolled for 15 semester credit hours.

<sup>2</sup> The average net cost for all full-time students is derived by subtracting the total need-based grant aid from the total academic costs of all students and dividing by the total number of students.

<sup>3</sup> In 2006-07, a total of 7,897 students at U. T. Pan American received an average need-based grant of \$8,662 resulting in \$68,403,814 of aid. Likewise, 5,218 students at U. T. El Paso received an average need-based grant of \$5,542 resulting in \$28,918,156 of aid. Because the average need-based grant was larger than the average academic cost, only those grant funds used to cover the academic costs were included in this analysis for these two institutions.

## General Analysis – Enrollment

In 1999 the Texas Higher Education Coordinating Board (THECB) published the first *Closing the Gaps (CTG)* report and challenged colleges and universities in the state of Texas to increase the number of students participating in higher education. U. T. System met this challenge by increasing both the number and diversity of its student body by the first benchmark in 2005. In order to meet the 2010 target of 205,103 students, total enrollment at U. T. System must increase by almost 2% per year for the next three years.

### Enrollment Trends

In fall 2007, total enrollment at U. T. System institutions was 194,199 students, an increase of 24,606 students (14.5%) from fall 2002 and 3,296 students (1.7%) from fall 2006.

- Enrollment at academic institutions was 182,647, an increase of 22,817 students (14.3%) since fall 2002 and 2,979 students (1.7%) since fall 2006.
- Enrollment at health institutions was 11,552, an increase of 1,789 students (18.3%) since fall 2002 and 317 students (2.8%) since fall 2006.

From fall 2002 to fall 2007, undergraduate enrollment at all U. T. System institutions grew by 16.0%, graduate enrollment grew by 11.0% and professional enrollment grew by 1.4%. At the academic institutions, the proportion of undergraduates increased slightly from 79.8% in fall 2002 to 81.1% in fall 2007. At the health institutions, the proportion of graduate students increased from 36.9% to 41.9%, while the proportion of professional students decreased from 41.2% to 37.5%

Overall, gender distributions at U. T. System remained fairly steady, with male enrollment around 46% and female enrollment around 54%. The proportion of women attending the health institutions has also remained the same, about 60% in fall 2007.

As the population of Texas became more diverse, ethnic distributions at U. T. System institutions also changed from fall 2002 to fall 2007.

- System-wide, the percentage of white students decreased from 44.2% to 38.4%.
- At the academic institutions, the proportion of African American students increased from 4.8% to 5.6%, and the Hispanic population increased from 34.3% to 39.6%.
- At the health institutions, the proportion of African American students increased from 5.8% to 6.7% and the International population increased from 6.6% to 12.1%.

### First-time in College

Enrollment of first-time in college students (FTIC) at the U. T. System academic institutions grew by 8.9% between fall 2002 and fall 2007, an increase of 1,900 students. Hispanic enrollment increased by 963 students, representing over half of the enrollment growth. African American enrollment had the highest percentage increase (59%), from 895 to 1,423, an increase of 528 students.

FTIC students are predominantly female (51.3%), full-time (95.7%) and non-white, with Hispanics comprising 42.0% of the class, Asian Americans 11.5%, African Americans 6.1%, and International 3.5% in fall 2007.

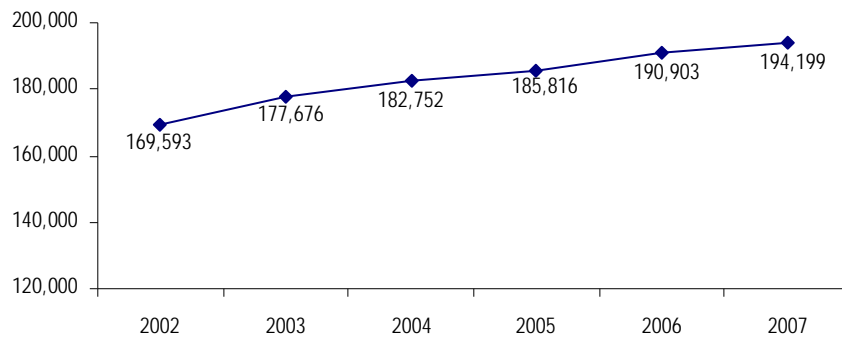

### **Transfers**

Transfer enrollment has remained relatively unchanged since fall 2002. There were 12,672 undergraduate transfers entering U. T. System academic institutions in fall 2007.

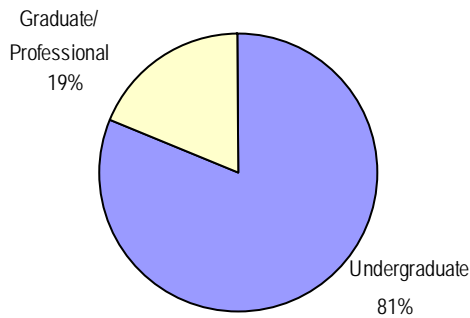

In fall 2007, transfer students are predominantly female (55.1%), transferred from a Texas community college (64.5%), and are ethnically diverse. About 43.7% of transfers are white, 34.1% are Hispanic, 8.1% are African American and 7.6% are Asian American.

Note:

In fall 2007, because of a recent software conversion, over 1,000 students were incorrectly classified as Unknown instead of International at U. T. Arlington. Based on revised figures from U. T. Arlington, the correct international enrollment for fall 2007 is as follows: 764 or 4.1% undergraduates, 1,918 or 31.6% graduates and 2,682 or 10.8% total enrollment.

## General Analysis – Persistence, Graduation and Outcomes

In February, 2006, the U. T. System Board of Regents passed a resolution making the improvement of graduation rates one of its highest priorities for the next decade.

The U. T. System Graduation Rate Improvement Initiative called for the nine academic institutions to set graduation rate targets for 2010 and 2015. These targets were approved by the Board of Regents in May 2006. While the impact of this initiative cannot be fully measured until the entering class of fall 2006 graduates, most institutions are improving their retention and graduation rates and should attain the 2010 targets if improvements of around 2% per year are sustained.

- Over the last six years, first-year persistence rates increased by three or more points at four institutions – U. T. El Paso, U. T. Pan American, U. T. San Antonio and U.T. Tyler.
- Five academic institutions improved their 4-year graduation rate from the previous year – U. T. Austin, U. T. Dallas, U. T. Pan American, U. T. Permian Basin and U. T. San Antonio.
- Two academic institutions improved their 5-year graduation rate from the previous year – U. T. Austin and U. T. Pan American.
- Four academic institutions improved their 6-year graduation rate from the previous year – U. T. Arlington, U. T. Austin, U. T. El Paso and U. T. Pan American.

Graduation rate effectiveness can also be measured by the percentage of students who graduate from any Texas institution of higher education (composite graduation rate) or are still enrolled at any Texas institution after six years.

- More than half of all students who started their college career at a U. T. System academic institution in 2000 had either graduated or were still enrolled in a Texas institution of higher education six years later.
- Three institutions – U. T. El Paso, U. T. Pan American, and U. T. San Antonio – have from 20 to 25% of their students enrolled and working toward a degree at a Texas institution six years after they entered college.

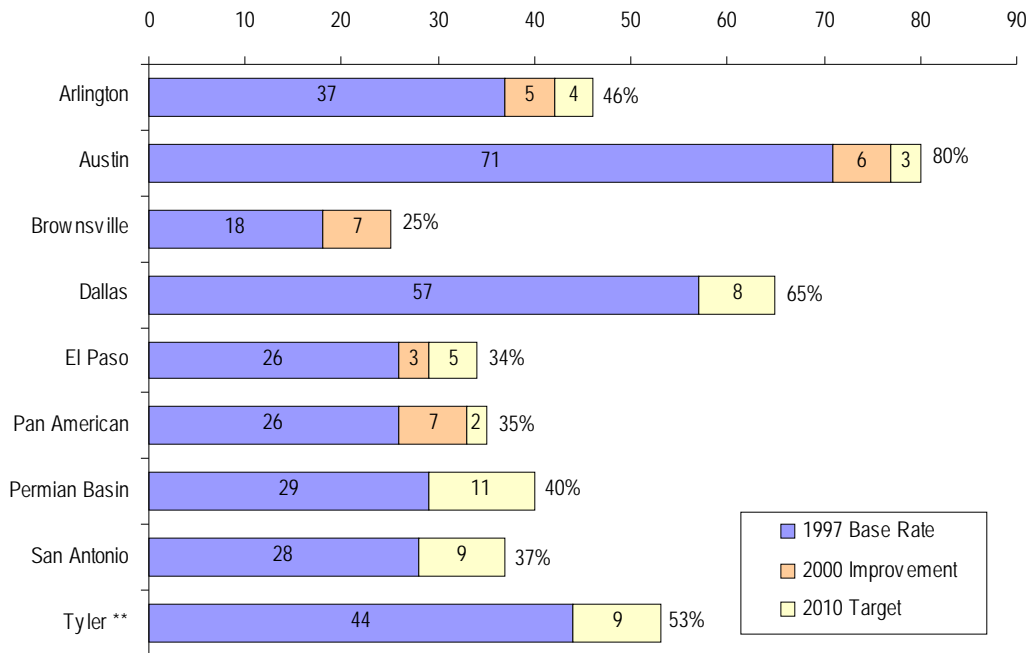

Improving the graduation rates of students who transfer from a community college is another priority of the U. T. System. The following trends are for community college transfer students entering U. T. System academic institutions with 30 or more credit hours:

- The four-year graduation rates for transfer students improved from the entering cohort of 1998 to the entering cohort of 2003 at five academic institutions – U. T. Austin, U. T. Dallas, U. T. El Paso, U. T. Pan American and U. T. San Antonio.

## Persistence, Graduation and Outcomes

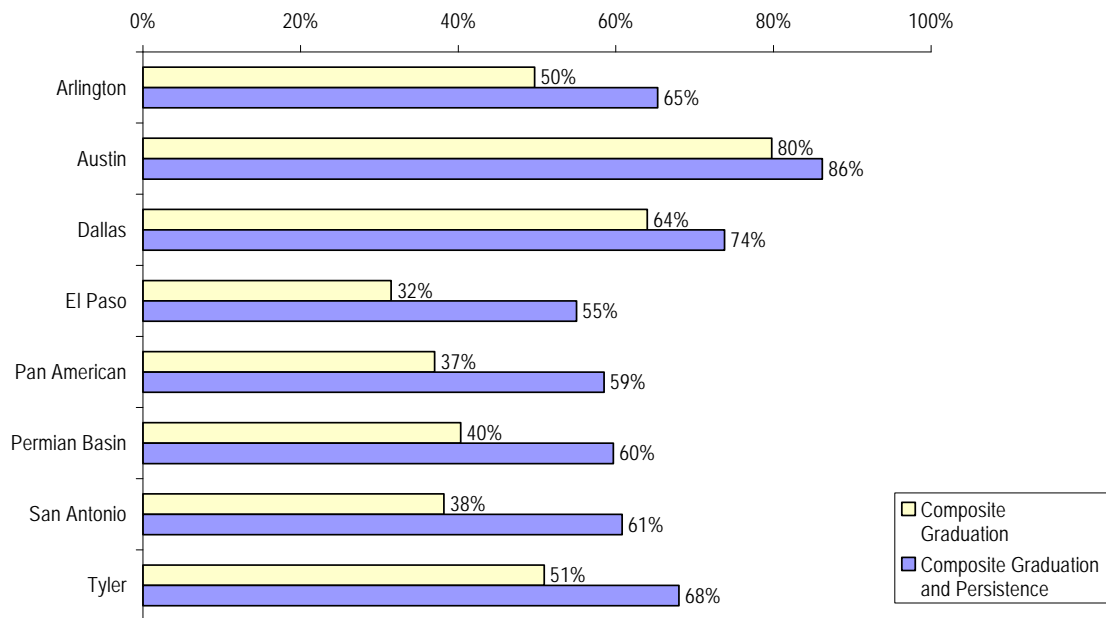

Progress to Six-Year Graduation Rate Targets

\*1997 graduation rate data not available for UT Brownsville.

\*\*UT Tyler did not admit lower division students until 1998; thus, the 1998 cohort was used as the base rate.

| Academic Total |      | 18,756 | 19,707 | 19,544 | 18,427 | 20,082 | 20,838 |

Notes:

Includes undergraduates who attended college for the first-time in the prior summer term, as well as first-time fall entrants. Full-time undergraduates are enrolled for 12 or more hours in the fall semester and are in a degree seeking program.

Due to data collection changes at the Texas Higher Education Coordinating Board, the fall 2003 cohorts are based on both non-degree seeking and degree-seeking students. In previous and subsequent years, non-degree seeking students were excluded from this calculation.

U. T. Brownsville's counts are not included because first-time undergraduates typically matriculate at Texas Southmost College.

|---------------|---------------|-------|-------|-------|-------|-------|-------|
| Arlington     |               | 65.6% | 66.4% | 60.4% | 68.9% | 64.1% | 61.2% |
| Austin        |               | 90.5  | 91.4  | 92.7  | 92.7  | 92.1  | 91.4  |
| Dallas        |               | 79.4  | 83.8  | 80.2  | 82.5  | 79.9  | 80.9  |
| El Paso       |               | 64.3  | 68.7  | 56.9  | 67.9  | 67.3  | 67.9  |
| Pan American  |               | 64.4  | 66.3  | 66.0  | 67.3  | 72.1  | 67.5  |
| Permian Basin |               | 61.2  | 65.6  | 67.8  | 57.3  | 57.0  | 61.9  |
| San Antonio   |               | 60.0  | 58.6  | 51.9  | 58.0  | 64.5  | 65.9  |
| Tyler         |               | 60.5  | 54.3  | 56.0  | 60.4  | 58.7  | 67.5  |

Notes:

Includes undergraduates who attended college for the first time in the prior summer term, as well as first-time fall entrants. Full-time undergraduates are enrolled for 12 or more hours in the fall semester and are in a degree-seeking program.

Due to data collection changes at the Texas Higher Education Coordinating Board, the fall 2003 cohorts are based on both non-degree seeking and degree-seeking students. In previous and subsequent years, non-degree seeking students were excluded from this calculation. Therefore, the persistence rate for the fall 2003 cohort at many U. T. System institutions is lower and may not be comparable to persistence rates of other years.

Persistence rates for entering cohorts may be inconsistent because of variability in social security numbers (SSNs). For example, at U. T. El Paso, adjusting for changed SSNs in the fall 2003 cohort, the first-year persistence rate would be 66.4%.

U. T. Brownsville is not included because first-time undergraduates typically matriculate at Texas Southmost College.

Notes:

Includes undergraduates who attended college for the first-time in the prior summer term, as well as first-time fall entrants. Full-time undergraduates are enrolled for 12 or more hours in the fall semester and are in a degree-seeking program.

Due to data collection changes at the Texas Higher Education Coordinating Board, the fall 2003 cohorts are based on both non-degree seeking and degree-seeking students. In previous and subsequent years, non-degree seeking students were excluded from this calculation. Therefore, the persistence rate for the fall 2003 cohort at many U. T. System institutions is lower and may not be comparable to persistence rates of other years.

Persistence rates for entering cohorts may be inconsistent because of variability in social security numbers (SSNs). For example, at U. T. El Paso, adjusting for changed SSNs in the fall 2003 cohort, the first-year persistence rate would be 66.4%.

U. T. Brownsville is not included because first-time undergraduates typically matriculate at Texas Southmost College.

\*\*Numbers are too small to report.

-- No entrants in this category.

**Notes:**

Graduation rates are for first-time, full-time, degree-seeking undergraduates who begin in the summer/fall of the enrollment year and graduate at the same institution. The cumulative rates represent the sum of degrees conferred at the end of the fourth, fifth and sixth academic year following the summer/fall of first enrollment. The graduation rates reported here are based on the IPEDS Graduation Rate Survey and may differ slightly from those reported by the Texas Higher Education Coordinating Board. Most students at U. T. Brownsville matriculate at Texas Southmost College, so historical graduation rates could not be accurately calculated for the campus prior to fall 2000.

U. T. Tyler did not admit freshmen until summer/fall 1998, their graduation rates begin with the 1998 entering cohort.

Graduation rate targets were submitted by U. T. System institutions and approved by the Board of Regents in May 2006.

N/A - Data not available.

Notes:

Graduation rates are for first-time, full-time, degree-seeking undergraduates who begin in the summer/fall of the enrollment year and graduate at the same institution. The cumulative rates represent the sum of degrees conferred at the end of the sixth academic year following the summer/fall of first enrollment.

U. T. Brownsville is not included because first-time undergraduates typically matriculate at Texas Southmost College.

U. T. Tyler did not admit freshmen until summer/fall 1998. The graduation rate for the fall 1999 cohort was corrected by U. T. Tyler and will vary from the rate reported by the Texas Higher Education Coordinating Board.

The cumulative rates represent the sum of degrees conferred at the end of the sixth academic year following the summer/fall of first enrollment.

U. T. Brownsville is not included because first-time undergraduates typically matriculate at Texas Southmost College.

U. T. Tyler did not admit freshmen until summer/fall 1998. The graduation rate for the fall 1999 cohort was corrected by U. T. Tyler and will vary from the rate reported by the Texas Higher Education Coordinating Board.

Persistence rates for international students are inconsistent because of variability in social security numbers (SSNs). For example, at U. T. Austin, adjusting for changed SSNs, the graduation rate for international students would be 84.2% for the 1999 cohort.

\*\* Number of students too small to report.

-- No entrants in this category.

Notes:

Beginning in 1998, the composite graduation and persistence rates include students enrolled or graduating from private institutions. Prior years' rates only track students enrolled or graduating from public institutions in Texas.

Graduation rates are for first-time, full-time, degree-seeking undergraduates who begin in the summer/fall of the enrollment year and graduate at the same institution. The composite rates represent combined cumulative graduation and persistence rates at any institution in Texas at the end of the sixth academic year following the summer/fall of first enrollment.

U. T. Brownsville is not included because first-time undergraduates typically matriculate at Texas Southmost College.

U. T. Tyler did not admit freshmen until summer/fall 1998. The graduation rate for the fall 1999 cohort was corrected by U. T.

Tyler and will vary from the rate reported by the Texas Higher Education Coordinating Board. Six year composite rates on revised cohort are not available.

N/A - Data not available.

Notes:

Beginning in 1998, the composite graduation and persistence rates include students enrolled or graduating from private institutions. Prior years' rates only track students enrolled or graduating from public institutions in Texas.

Graduation rates are for first-time, full-time, degree-seeking undergraduates who begin in the summer/fall of the enrollment year and graduate at the same institution. The composite rates **represent combined cumulative graduation and persistence rates at any institution in Texas** at the end of the sixth academic year following the summer/fall of first enrollment.

U. T. Brownsville is not included because first-time undergraduates typically matriculate at Texas Southmost College.

U. T. Tyler did not admit freshmen until summer/fall 1998. The graduation rate for the fall 1999 cohort was corrected by U. T. Tyler and will vary from the rate reported by the Texas Higher Education Coordinating Board. Six year composite rates on revised cohort are not available.

Persistence rates for international students are inconsistent because of variability in social security numbers (SSNs). For example, at U. T. Austin, adjusting for changed SSNs, the graduation rate for international students would be around 80%.

\*\* Number of students too small to report.

Notes:

<sup>1</sup> Percent earning a master's certificate in five or less years.

<sup>2</sup> Percent earning a doctoral certificate in ten or less years. Doctoral percentages do not include students who received a master's level award.

<sup>3</sup> UTMB-Galveston excludes students who transferred from other institutions or students who matriculated in semesters other than fall.

Notes:

The number of graduates represent baccalaureate recipients who started college in a Texas public institution within 10 years of their graduation date. Out-of-state transfer students and students who took more than 10 years to graduate are excluded from this table. Consequently, the number reported in this table will not match the total number of degrees published elsewhere. In addition, enrollment in summer semesters were not included in the average semesters enrolled.

**Notes:**

For Academic Institutions, pass rates represent the percentage of initial test takers who pass all parts of licensure exams either before graduation from the program or within the twelve months immediately following graduation from the program.

At U. T. El Paso, passing the Fundamental of Engineering licensure exam has not been a degree requirement since 2003-04. Consequently, students may take the exam in practice mode without completing the necessary coursework. This practice has resulted in lower institutional pass rates.

For Health Institutions, pass rates represent the percentage of initial test takers who pass exams during the reporting period. Only certain cohorts of MSN graduates are required to take the Advance Practice Nursing examination, and it is given two years after degree completion.

## General Analysis – Degrees and Certificates Awarded

System institutions produce over one-third of the degrees and certificates awarded by public universities and almost seven out of ten health care degrees and certificates awarded by health-related institutions in Texas.

In 2006-07, U. T. System institutions awarded 39,297 degrees and certificates, an increase of 8,229 degrees or 26.5% over the 2001-02 academic year.

- The number of degrees and certificates awarded at the academic institutions increased from 28,282 in 2001-02 to 35,969 in 2006-07, a 27.2% increase. Degrees awarded at the doctoral level grew at the fastest rate, 40.0%.
- At the health institutions, the number of degrees and certificates awarded increased from 2,786 to 3,328, a 19.5% increase over the same time period.

Overall, around 56% of the awards went to women, about the same as the previous year. At the health institutions, the growth rate of degrees and certificates awarded to women was 22.2% from 2001-02 to 2006-07, compared to a 15.3% increase for men.

- In 2006-07, women earned 57.1% of baccalaureate degrees at the academic institutions and 65.9% of the certificates and baccalaureate degrees at the health institutions.
- At the graduate/professional level, women earned 51.0% of the awards at academic institutions and 58.9% at health institutions.

System-wide, the proportion of degrees and certificates awarded to African American, Hispanic, Asian American students increased over time, while the proportion awarded to white students decreased. In 2006-07, over half of the awards were to non-white and International students (52.9%), with Hispanics receiving more than one-fourth of the total awards (28.6%).

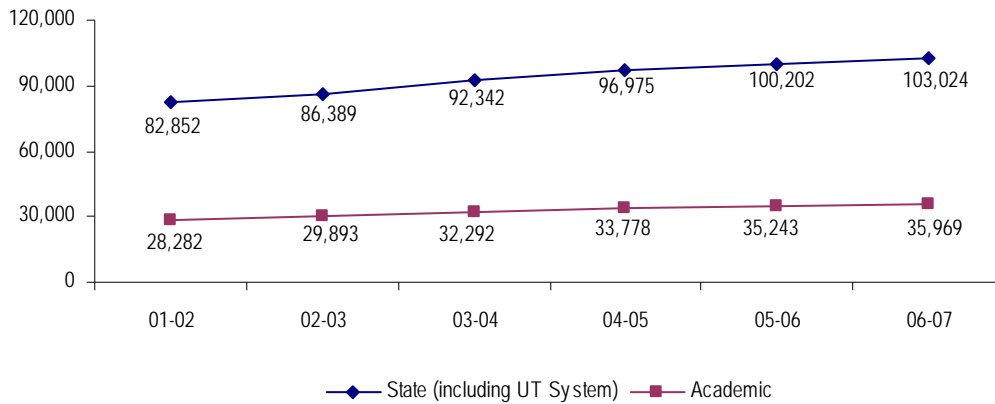

- At the undergraduate level, non-white and International students earned 53.6% of the degrees at academic institutions and 49.9% of degrees and certificates at the health institutions.
- At the graduate/professional level, non-white and International students earned 54.3% of the degrees and certificates at academic institutions and 39.4% of degrees and certificates at health institutions.

With an increased emphasis nationally in the areas of science, technology, engineering and mathematics (STEM), U. T. System contributed to these degrees at every level. In 2006, 23.0% of baccalaureate, 23.3% of master's and 46.7% of doctoral degrees awarded at U. T. System academic institutions were in a STEM field. Overall, almost one out of four degrees awarded at U. T. System academic institutions was a STEM degree (23.8%), a higher percentage than other public universities in Texas (18.5%) and the nation (18.7%).

Note:

In AY 2004-05, institutions began reporting bachelor-level certificates of greater than 20 semester credit hours (SCHs) and graduate-level certificates of greater than 15 SCHs. For consistency in reporting, certificates for prior years were allocated based on the new categories, but may not have the same SCH requirements.

Note:

In AY 2004-05, institutions began reporting bachelor-level certificates of greater than 20 semester credit hours (SCHs) and graduate-level certificates of greater than 15 SCHs. For consistency in reporting, certificates for prior years were allocated based on the new categories, but may not have the same SCH requirements.

Notes:  
 Data include four-year public, degree-granting, Title IV participating institutions. Theological institutions have been excluded.  
 U. T. System institutions are excluded from 'Texas Public, Other' category.  
 STEM majors are based on the NSF STEM classification. Includes chemistry; engineering; mathematics; physics/astronomy; agricultural, computer, environmental, geo- and life/biological sciences and technology/technician-related fields such as electronic and computer engineering and environmental control technology.  
 Texas health-related institutions are not included in 'U. T. System' or 'Texas Public, Other' categories.

**Note:**

In AY 2004-05, institutions began reporting bachelor-level certificates of greater than 20 semester credit hours (SCHs). For consistency in reporting, certificates for prior years were allocated based on the new categories, but may not have the same SCH requirements.

Note:

In AY 2004-05, institutions began reporting bachelor-level certificates of greater than 20 semester credit hours (SCHs). For consistency in reporting, certificates for prior years were allocated based on the new categories, but may not have the same SCH requirements.

Note:  
 In AY 2004-05, institutions began reporting graduate-level certificates of greater than 15 semester credit hours (SCHs). For consistency in reporting, certificates for prior years were allocated based on the new categories, but may not have the same SCH requirements.

**Note:**

In AY 2004-05, institutions began reporting graduate-level certificates of greater than 15 semester credit hours (SCHs). For consistency in reporting, certificates for prior years were allocated based on the new categories, but may not have the same SCH requirements.

*Source: Texas Higher Education Coordinating Board data*

## General Analysis – Semester Credit Hours (SCH) and FTE Students

From fall 2002 to fall 2007, the number of semester credit hours taught at U. T. System academic institutions increased from nearly 1.8 million to more than 2.0 million, a 14.3% increase\*. Most of this increase occurred at the undergraduate level, growing from 1.5 million to 1.7 million semester credit hours, or 15.8%.

- The number of doctoral hours increased at the fastest rate, from 48,507 to 56,346 (16.2%).
- The number of professional credit hours decreased from 28,470 to 24,751 (-13.1%).

From fall 2002 to fall 2007, the ratio of full-time equivalent (FTE) students to FTE faculty decreased for U. T. Austin, U. T. Dallas and U. T. Arlington. The ratio of students to faculty increased at all the other U. T. System academic institutions, except U. T. Brownsville, where it remained the same.

- U. T. Pan American had the largest annual increase with ratios going from 24 to 1 (fall 2006) to 26 to 1 (fall 2007). However, this increase was a result of U. T. Pan American reducing the proportion of faculty members' assignments from direct instruction to more accurately reflect research and public service expectations.
- U. T. San Antonio and U. T. Pan American both had FTE student to FTE faculty ratios of 25 to 1, or higher in fall 2007.

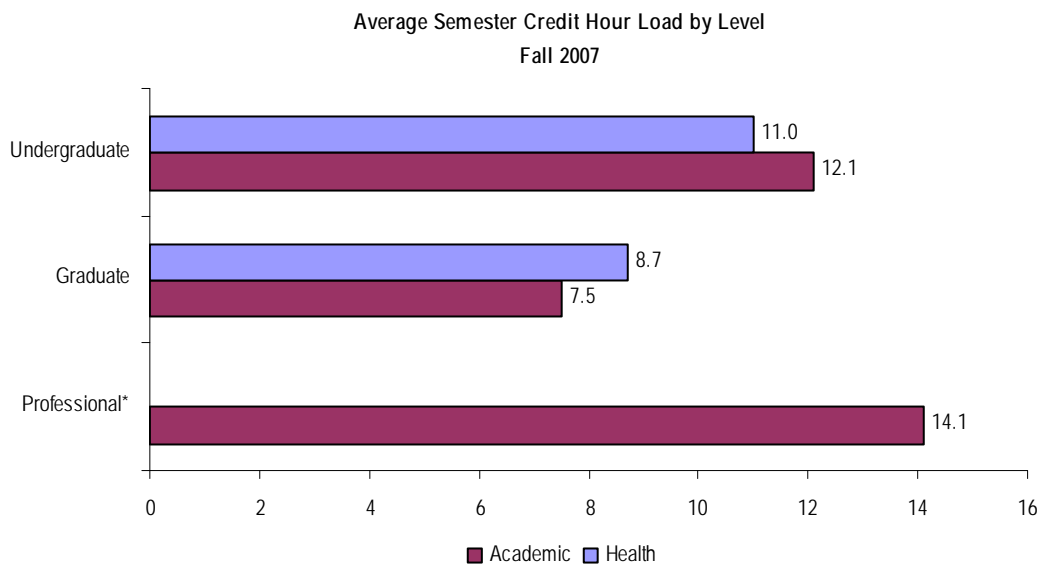

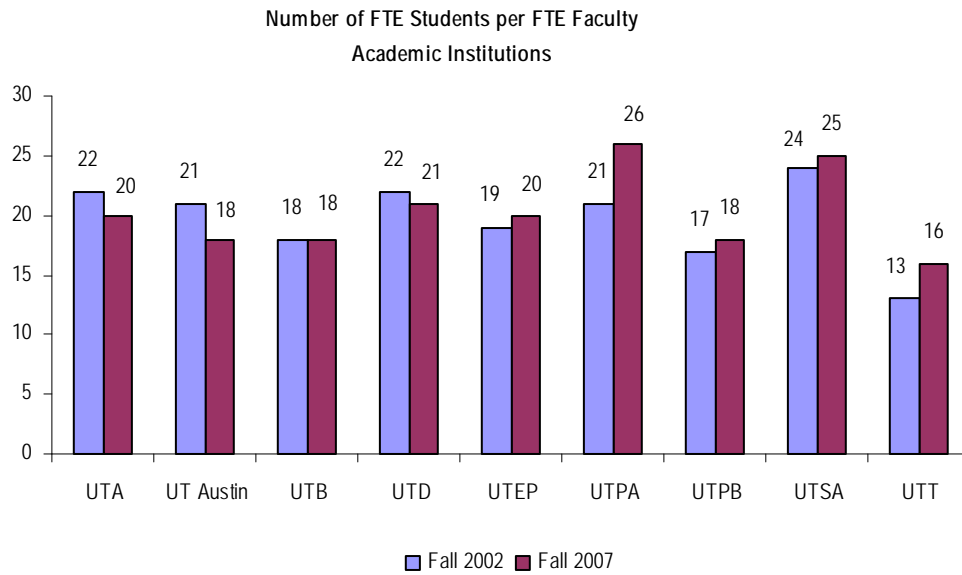

Undergraduate students at the academic institutions are taking more semester credit hours. From fall 2002 to fall 2007, the average SCH for undergraduate students increased from 11.8 to 12.1. The average SCH stayed the same at the graduate level, 7.5 semester credit hours.

- The average undergraduate credit load increased at U. T. Austin, U. T. Brownsville, U. T. Dallas, U. T. Pan American, U. T. Permian Basin, U. T. San Antonio and U. T. Tyler.
- At the health institutions, the average credit load for undergraduate students decreased from 12.1 in fall 2002 to 11.0 in fall 2007 and the average SCH also decreased slightly for graduate students, from 8.8 to 8.7. Most of the undergraduate decrease was the result of the U. T. HSC–Houston increasing the number of post-baccalaureate certificate programs in fall 2007.

\*Comparable information is not available for health institutions because detailed semester credit hour data are not collected by the Texas Higher Education Coordinating Board.

## Semester Credit Hours (SCH) and FTE Students

\*SCH data for professional students at the health institutions are not available.

| Tyler         | FTE Students | 2,862   | 3,390   | 3,891   | 4,323   | 4,493   | 4,690   |
|               | FTE Faculty  | 218     | 217     | 246     | 261     | 269     | 286     |
|               | Ratio        | 13 to 1 | 16 to 1 | 16 to 1 | 17 to 1 | 17 to 1 | 16 to 1 |

**Notes:**

FTE Students represent the sum of undergraduate semester credit hours divided by 15, master's and professional semester credit hours divided by 12, doctoral semester credit hours divided by 9. Semester credit hours include state-funded, non-state-funded and excess hours.

FTE Faculty includes tenured, tenure-track and professional faculty ranks.

In fall 2006, U. T. Pan American revised the proportion of faculty members' assignments from direct instruction to more appropriately reflect research and public service expectations. This resulted in lower FTE faculty counts and higher student/faculty ratios than in past years.

U. T. Brownsville includes students who matriculate through Texas Southmost College and faculty in Master Technical Instructor ranks.

M. D. Anderson Cancer Center admits a small number of Health Sciences undergraduates each year (133 FTE students in fall 2007). However, MDACC collaborates extensively with the Health Science Center-Houston to serve hundreds of students who rotate through their joint programs. In fall 2007 this included 529 graduate students shared with HSC-H. The HSC-Tyler does not admit students.

**Notes:**

Semester credit hour (SCH) data are not available for professional students enrolled at health institutions.

SCH for dual enrolled high school students have been excluded.

HSC-Houston increased the number of post-baccalaureate certificate programs offered in fall 2007, which resulted in a decrease in the average SCH at the undergraduate level.

## General Analysis – Faculty and Staff

To keep pace with enrollment and research growth, U. T. System institutions employ an increasing number of faculty and staff each year.

The number of faculty employed by U. T. System institutions grew from 14,785 in fall 2002 to 17,488 in fall 2007, an 18.3% increase.

At the academic institutions, the number of faculty increased from 8,140 to 9,658, an 18.6% increase, driven primarily by enrollment growth.

At the health institutions, the number of faculty increased from 6,645 to 7,830, or 17.8%. The increase in health faculty was driven by enrollment increases and the expansion of research and clinical care activities at these institutions.

Following the national trend, the proportion of faculty in tenured/tenure-track positions (professor, associate professor, assistant professor and instructor) is decreasing, from 46.0% in fall 2002 to 42.5% in fall 2007.

Although the majority of faculty at U. T. System are men, the overall proportion of women increased between fall 2002 and fall 2007.

- At the academic institutions, the proportion of women faculty increased at all levels; from 23.4% to 24.8% for tenured women, from 39.1 to 41.6% for tenure-track women, and from 48.4% to 51.4% for other professional women.
- At the health institutions, the proportion of women faculty also increased at all levels. The proportion of tenured women increased slightly from 22.2% to 23.7%, tenure-track women increased from 30.8% to 34.0%, and other professional women faculty increased from 42.8% to 43.5%.

Faculty employed at both the academic and health institutions were slightly more diverse in fall 2007 than fall 2002.

- Within the academic institutions, the proportion of white faculty declined from 74.0% in 2002 to 69.4% in 2007. The representation of most of the non-white ethnic groups increased during this same time period. The proportion of African American faculty increased from 2.7% to 2.9%, Hispanic faculty increased from 13.2% to 15.2% and Asian American faculty increased from 6.9% to 8.3%. The percentage of International faculty increased from 2.8 percent to 3.6 percent and the percentage of Native American faculty increased from 0.4 percent to 0.5 percent.
- At the health institutions, the proportion of white faculty decreased from 71.9% in 2002 to 65.5% in 2007. The Hispanic faculty increased from 6.4% to 7.3%, Asian American faculty from 16.9% to 20.8% and International faculty from 1.5% to 2.6%.

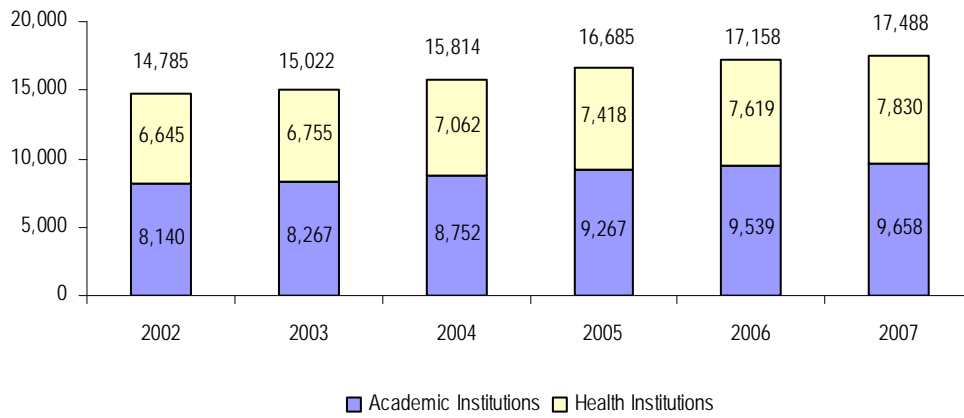

From fall 2002 to fall 2007, the number of non-faculty staff employed by U. T. System institutions grew from 72,991 to 83,627, a 14.6% increase. In fall 2007, there were 5,099 administrative staff, 58,673 other non-faculty staff and 19,855 student employees.

Notes:

Full-time equivalent faculty are defined as 1 FTE=100% appointment and have been rounded to the nearest whole number. FTE faculty have an academic rank of Professor, Associate Professor, Assistant Professor, or Other and have an appointment code in direct instruction or an administrative appointment which directly supplements the teaching function.

In fall 2006, U. T. Pan American revised the proportion of faculty members' assignments from direct instruction to more appropriately reflect research and public service expectations. This results in lower FTE faculty counts than past years.

Notes:

Administrative and other non-faculty exclude faculty positions and do not entail significant direct instructional activities. Administrative includes executive, administrative and managerial positions which require performance of work directly related to management policies or general business operations of the institution, department or subdivision. Other non-faculty includes other professional, technical, clerical, skilled crafts and service related positions. Student employees are those positions for whom student status is a condition of employment.

## General Analysis – Research

Research is not only a measure of faculty innovation, competitiveness and productivity, but also an economic driver for Texas. U. T. System research expenditures from all sources were \$1.95 billion in FY 2007. Federal research expenditures increased by 29.0 percent, from more than \$887 million in FY 2003 to 1.14 billion in FY 2007.

- Between FY 2003 and FY 2007, total research expenditures increased by more than \$160 million at M. D. Anderson, by \$100 million at U. T. Austin and by more than \$60 million at Southwestern Medical Center.
- In FY 2007, federal research expenditures accounted for 58.8 percent, private research expenditures accounted for 19.1 percent and state expenditures accounted for 16.4 percent of total U. T. System research expenditures.
- Between FY 2003 and FY 2007, federal research expenditures increased by 40.1 percent at academic institutions and by 23.5 percent at health institutions.

Sponsored revenue is a more comprehensive measure of an institution's overall success in securing funding to support research, public service, training and other activities. In FY 2007, U. T. System institutions received more than \$2.28 billion from all sources, an increase of 27.6 percent from \$1.79 billion in FY 2003.

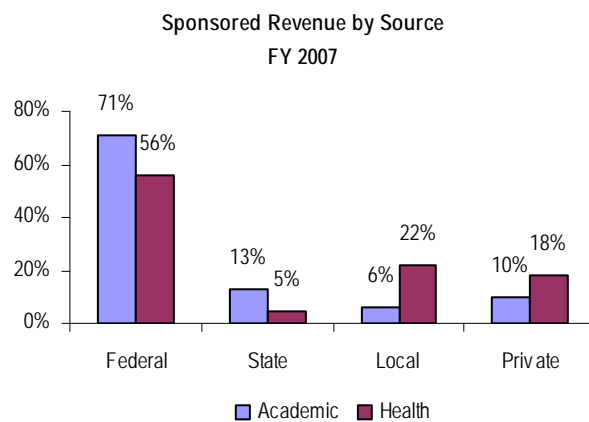

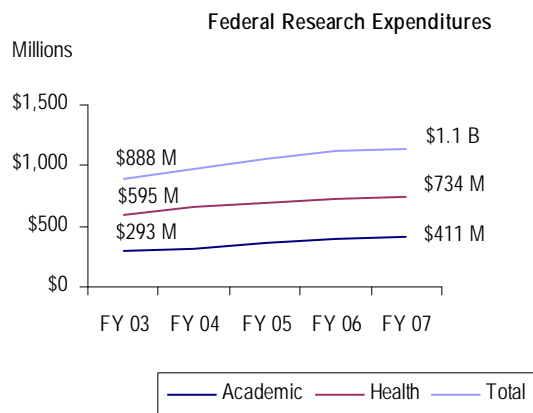

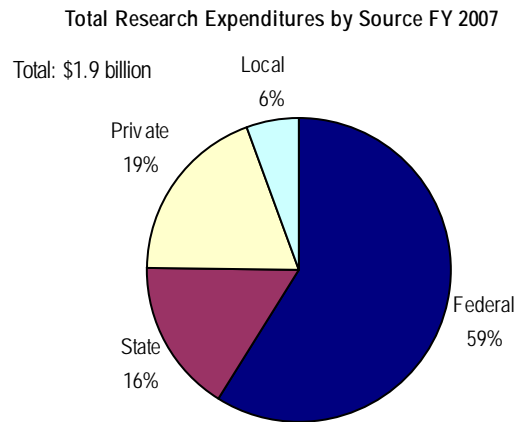

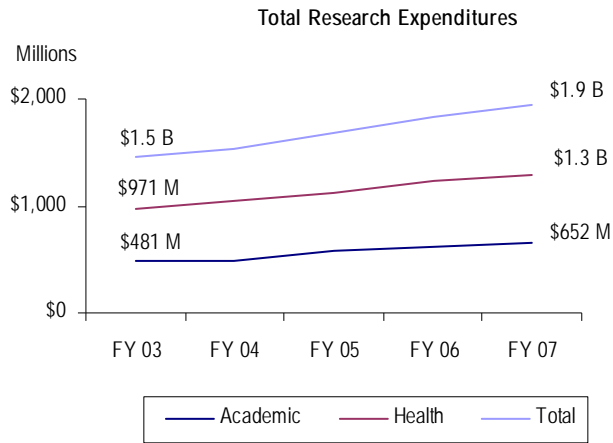

- Sponsored revenue received from federal sources accounted for 61.9 percent of the total while 15.5 percent came from local sources and 14.7 percent came from private sources.
- Between FY 2003 and FY 2007, sponsored revenue at health institutions increased by 25.1 percent and increased by 31.6 percent at academic institutions.

Another measure of research productivity is the number external research grants held by tenured and tenure-track faculty, the percentage of faculty holding such grants and the average number of research dollars per full-time equivalent (FTE) tenured/tenure-track faculty. At the U. T. System health institutions, research grants are also held by non-tenured research faculty.

- Between FY 2002 and FY 2007, the number of research grants increased at eight of the nine academic institutions and the percentage of tenured and tenure-track faculty holding grants increased at six of the nine institutions.
- In FY 2007, more than one-third of the tenured/tenure-track faculty held research grants at U. T. Arlington, U. T. Austin, U. T. Dallas, U. T. El Paso, and U. T. San Antonio and research expenditures per FTE tenured/tenure-track faculty averaged more than \$50,000 at each of these institutions.
- Research expenditures per FTE tenured/tenure-track faculty increased at every health institution and averaged more than \$300 thousand at U. T. Southwestern Medical Center, U. T. Medical Branch, U. T. Health Science Center – Houston, and M. D. Anderson in FY 2007.

Notes:

Research expenditures are monies spent to support Research activities and are funded by government and private entities and include indirect costs and pass-throughs to institutions. Research is systematic study directed toward fuller scientific knowledge or use of knowledge directed toward the production of useful materials, devices, systems or methods including design and development of prototypes and processes.

Notes:

Federal research expenditures are monies spent to support Research activities and are funded by federal governmental entities in the form of contracts, grants and agreements, including indirect costs and federal monies passed through state agencies. Federal Research expenditures are considered a national benchmark to measure institutions' research success.

Notes:

Sponsored Revenue are monies received from governmental and private entities to support services performed on grants, contracts and agreements, including indirect cost recoveries and pass-throughs to institutions. Sponsored revenue is a comprehensive measure of an institution's overall success in securing funding to support research, public service, training and other activities.

**Notes:**

For multi-investigator grants, only the principle investigator is counted

Non-tenure-track research faculty excludes those appointed primarily to teach.

UTMB decline in FY 2003-04 is a result of the systems previously in place. The prior system did not allow an unduplicated enumeration of grants and PI awardees.

HSC-Houston's method of calculation changed after FY 2000-01. Number decreased for 2004 because changes in the software used to track these data. Some closed-out grants were included in the total in 2003 which have not been eliminated. In this report for FY 2003-04, they have been, thus the big drop in number per total T/TT faculty.

M.D. Anderson's "Tenure/tenure-track" equivalent faculty are awarded seven-year term appointments, renewable through a formal promotion and reappointment process. A refinement in data collection resulted in the increase in number of grants to T/TT faculty in 2004.

## General Analysis – Finance

Major revenue sources for U. T. System institutions include contracts & grants, state appropriations, tuition & fees for the academic institutions, and sales and services of hospitals for the health institutions.

The percent of revenues from state appropriations continues to decline relative to total revenues.

- In FY 2007, state appropriations accounted for 23.6% of the academic institutions' revenue, down from 29.5% in FY 2003.
- State appropriations accounted for 14.1% of the health institutions' revenue, down from 18.1% in FY 2003.
- State appropriations in current dollars per full-time equivalent (FTE) students decreased between FY 2002 and FY 2007 at every academic institution except U. T. Austin.
- When adjusted for inflation, state appropriations per FTE students and FTE faculty dropped by about 17.3%, on average, from FY 2002 to FY 2007.

The three largest categories of expenses for all U. T. System institutions are hospitals and clinics, instruction, and research.

- Operating expenses for hospitals and clinics increased from \$1.89 billion in FY 2003 to \$2.64 billion in 2006, a 39.1% increase, instruction increased from almost \$1.85 billion in FY 2003 to \$2.38 billion in FY 2007, a 29.0% increase; and research expenses increased from \$1.14 billion in FY 2003 to \$1.54 billion in FY 2006, a 35.2% increase.

Endowments for the U. T. System increased substantially between FY 2003 and FY 2007.

- For the academic institutions, endowments increased from \$4.60 billion to \$7.88 billion from FY 2003 to FY 2007, a 71.5 percent increase, and by 103.2 percent from \$1.54 billion to \$3.13 billion for the health institutions.

Donor support increased for U. T. health institutions, but declined for U. T. academic institutions between FY 2003 and FY 2007.

- Donor support increased at all health institutions from \$234 million in FY 2003 to \$453 million in FY 2007, a 93.3 percent increase. While donor support increased at five of the nine academic institutions, the total donor support declined from \$351 million in FY 2003 to \$306 million in FY 2007.

U. T. System health institutions generate revenue from hospital patient care, and faculty also provide a significant amount of unsponsored charity care in state-owned and affiliated facilities.

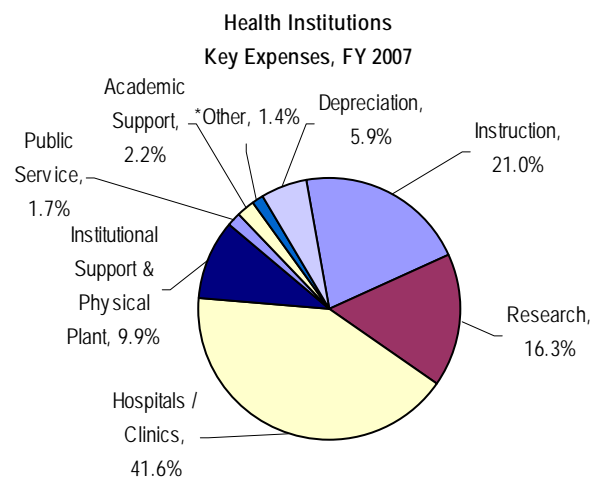

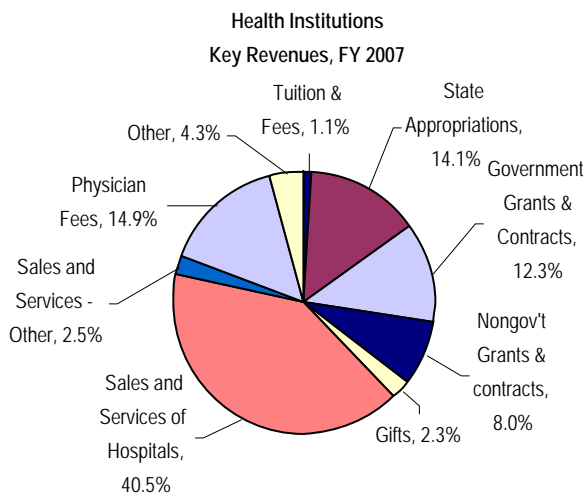

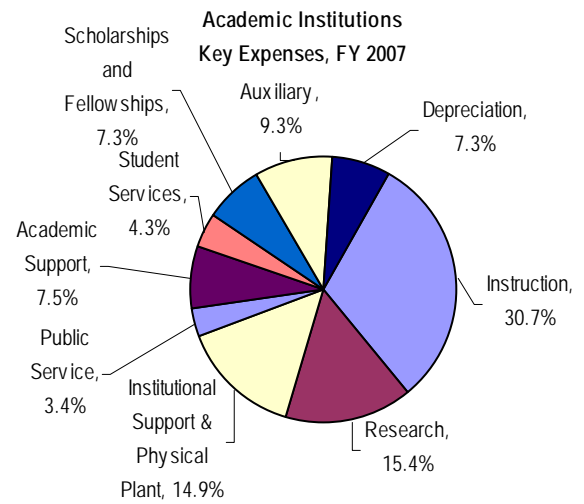

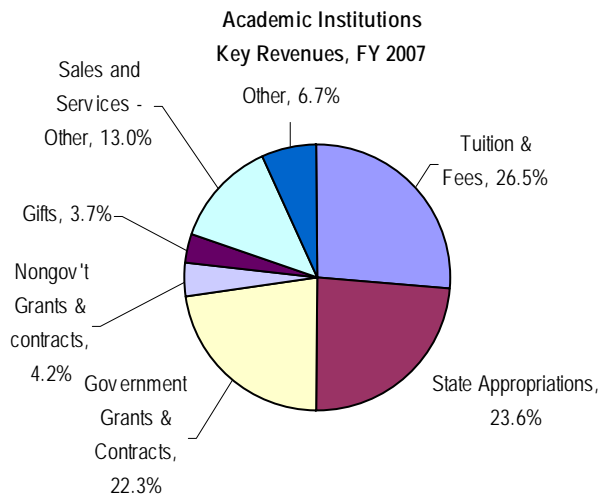

- Patient care revenue in FY 2006 was \$2.95 billion, an increase of 73 percent over FY 2002.
- Total charges for unsponsored charity care provided by U. T. System faculty and hospitals were over \$1.4 billion in FY 2006.

The amount of money expended for administrative costs relative to total expenses was 7.4% for academic institutions and 5.6% at health institutions in FY 2007.

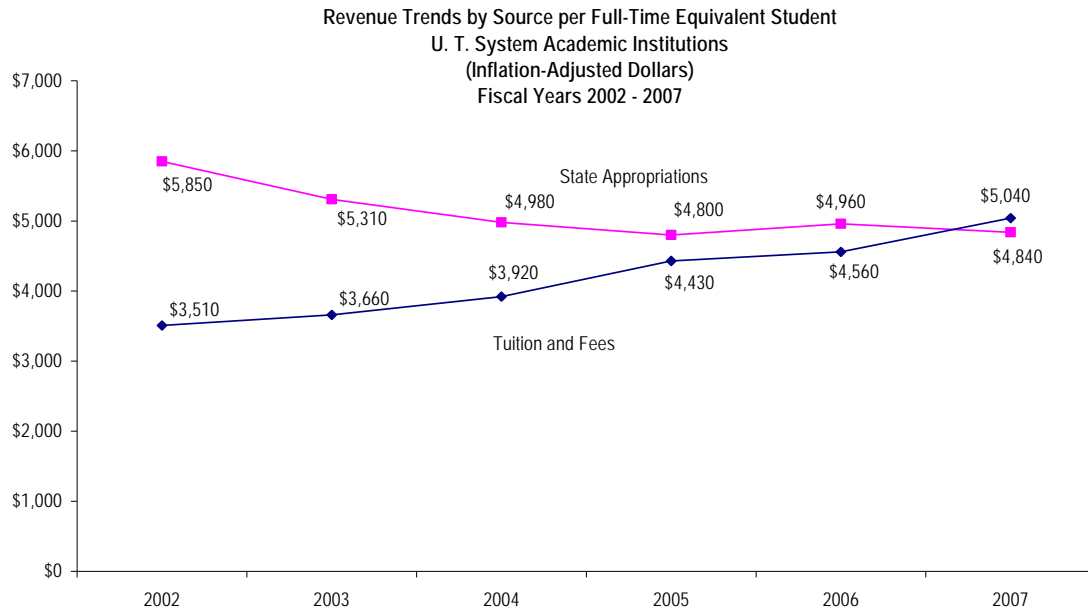

### Finance Information

\*Other includes Student Services, Scholarships and Fellowships, and Auxiliary

## Finance Information

Notes: U. T. System totals do not include U. T. Brownsville.

Tuition and fee revenue is net of scholarship and fellowship discounts and waivers.

All revenue and expense data were adjusted to the FY 2002 base year for inflation using the Consumer Price Index - Urban (CPI - U) for September of each year.

Notes:

These totals include endowment funds managed by UTIMCO as well as those held in trust by other entities, as reported to the Council for Aid to Education each year. (Information offered on endowment funds not managed by UTIMCO is reported by each institution. Due to factors beyond control of the U. T. System Administration, amounts reported may represent estimates instead of actual figures.) Some of the increase in the total market value of endowments of these institutions is attributable to funds distributed through the Permanent Health Fund, as part of the tobacco settlement.

Endowment values for U. T. System Administration exclude the Permanent Health Fund, which is reported by the institutions.

Note:

Administrative costs are Institutional Support expenses for executive management, fiscal operations, general administration and logistical services, administrative computing support, and public relations/development. Total costs, as defined by the LBB, exclude expenses of auxiliary enterprises and service departments.
