

Welcome to Accredo, your specialty pharmacy.

Where our focus is you.

Whether you're newly diagnosed with a complex condition or just new to Accredo, we're here for you every step of your health journey. Our specialty-trained pharmacists and nurses work with your doctors to provide you with hyper-focused care and support throughout your treatment, which includes:

Clinical support around the clock

- Specialty-trained pharmacists and nurses are available 24/7 to answer any questions
- Nurses provide one-on-one support to help you administer your medication – sometimes in the comfort of your own home

Medication and supplies delivered to you

- Free shipping, including additional supplies at no additional charge
- Stored, handled and shipped with care, using our proprietary shipping technology for refrigerated medications

Many UT Health institutions have a specialty pharmacy.
Ask your UT pharmacy today if you're able to fill your specialty prescription onsite.

Insurance and financial assistance support

- Insurance approval and eligibility coordination
- Connections to financial assistance programs and copay assistance programs like **SaveOnSP** (www.saveonsp.com/uts)

Medication management anywhere

- Order refills,¹ track orders and shipments, view medication history and more
- Do it all with the Accredo® mobile app or by registering at **accredo.com**

A specialty medication is used to treat chronic or complex conditions like hemophilia, multiple sclerosis and cancer. Specialty medications can be **injections, infusions, inhalants, or oral solids** and may need special handling like refrigeration.

A specialty pharmacy, like a specialist physician, focuses on **patient care and treatments** for specific, more complex conditions, **manages your prescriptions** and supports you along the way.
