No material exceptions were noted in performing these procedures. Refer to the notes to the Statements of Revenues and Expenditures for major expense accounts that exceeded 10% of the total expenses and had a change greater than 10% when compared to prior period amounts and/or budget estimates for the 2024 reporting year.

- **20.** Athletic Student Aid. We selected a sample of 10% of the total student-athletes for institutions who have used NCAA's Compliance Assistant (CA) software to prepare athletic aid detail, with a maximum sample size of 40, from the listing of institutional student aid recipients during the reporting period and performed the following procedures:
 - a. We obtained individual student account detail for each selection and compared total aid in the institution's student system to the student's detail in the Compliance Assistant (CA) or the institution report that ties directly to the NCAA Membership Financial Reporting System.

- b. We performed a check of each student selected to ensure their information was reported accurately in the NCAA's CA software using the following criteria:
 - i. Grants-in-aid is calculated by using the revenue distribution equivalencies by sport and in aggregate. (Athletic grant amount divided by the full grant amount).
 - ii. Other expenses related to attendance (also known as cost of attendance) should not be included in grants-in-aid revenue distribution equivalencies. Only tuition, fees, room, board and course-related books are countable for grants-in-aid revenue distribution per Bylaw 20.02.10.
 - iii. Full grant amount should be entered as a full year of tuition, not a semester or quarter.
 - iv. Student-athletes are to be counted once, regardless of multiple sport participation, and should not receive a revenue distribution equivalency greater than 1.00.
 - v. Athletics grants are valid for revenue distribution purposes only in sports in which the NCAA conducts championships competition, emerging sports for women and bowl subdivision football.
 - vi. Grants-in-aid are valid for revenue distribution purposes in NCAA sports that do not meet the minimum contests and participants' requirements of Bylaw 20.10.6.3.
 - vii. Institutions providing grants to student-athletes listed on the Calculation of Revenue Distribution Equivalencies Report (CRDE) as "Exhausted Eligibility (fifth-year)" or "Medical" receive credit in the grants-in-aid component.
 - viii. The athletics aid equivalency cannot exceed maximum equivalency limits. However, the total revenue distribution equivalency can exceed maximum equivalency limits due to exhausted eligibility and medical equivalencies (reference Bylaw 15.5.3.1).
 - ix. If a sport is discontinued and the athletic grants are still being awarded/honored by the institution, the grants are included in student-athlete aid for revenue distribution purposes.
 - x. All equivalency calculations should be rounded to two decimal places.
 - xi. If a selected student received a Pell Grant, ensure the value of the grant is not included in the calculation of equivalencies or the total dollar amount of student athletic aid expense for the institution.
 - xii. If a selected student received a Pell Grant, ensure the student's grant was included in the total number and total dollar value of Pell Grants reported for Revenue Distribution purposes in the NCAA Membership Financial Reporting System.

STEPHEN F. AUSTIN STATE UNIVERSITY INTERCOLLEGIATE ATHLETICS PROGRAM AGREED-UPON PROCEDURES NOTES TO THE STATEMENT FOR THE YEAR ENDED AUGUST 31, 2024

Basis of Presentation

Stephen F. Austin State University (University) is an agency of the State of Texas and its financial records comply with state statutes and regulations. During the year ended August 31, 2023, the University's Board of Regents voted to affiliate with The University of Texas System (U. T. System). The 88th Texas Legislature passed enabling legislation which was signed into law by the Governor of Texas in May 2023. On September 1, 2023, the University was reestablished in statute as Stephen F. Austin State University, a member of U. T. System. As of September 1, 2023, the University's Board of Regents was dissolved and the University became subject to the authority of the U. T. System Board of Regents (U.T. Regents).

Financial reports are prepared in conformity with the General Provisions of the Appropriations Act, Article IX, in accordance with the requirements established by the Comptroller of Public Accounts. The basis of accounting determines when revenues and expenses are recognized, which is primarily the accrual basis. The accompanying statement is prepared on this basis. The purpose of the statement is to present a summary of financial activity of the Intercollegiate Athletics Program of the University for the year ended August 31, 2024. Because the schedules present only a selected portion of the activity of the University, they are not intended to and do not present either the financial position or changes in financial position for the University in total.

Indirect Cost

The University provides administrative and operational support to the intercollegiate athletics program that is shown on the statement of revenues and expenses as indirect facilities and administrative support operating revenues and indirect facilities and administrative support operating expenditures. The University calculated the indirect revenues and expenditures using an administrative cost rate of 19.19%, the administrative cost rate reported to the Texas Legislative Budget Board, which amounted to \$3,564,051 for fiscal year 2024.

Contributions

During the year ended August 31, 2024, the University did not receive any individual contributions that exceeded 10% of the total contributions.

Intercollegiate Athletics-Related Assets

Equipment with an initial, individual cost of \$5,000 or more and an estimated useful life in excess of one year is capitalized by the University. Buildings, infrastructure, facilities, and other assets are capitalized when they meet thresholds set by the State. These assets are capitalized at cost or, if not purchased, at appraised fair value on the date of acquisition. Depreciation is reported on all exhaustible assets. Assets are depreciated over the estimated useful life of the asset using the straight-line method of depreciation.

At August 31, 2024, the University had \$53,667,541, less accumulated depreciation of \$26,128,858, of athletically related property, plant, and equipment. During the year ended August 31, 2024, the University had total athletically related capital additions of \$153,937.
