THE UNIVERSITY OF TEXAS SYSTEM  
 U. T. BOARD OF REGENTS' MEETING  
 APRIL 10-11, 1986  
 HOGG FOUNDATION FOR MENTAL HEALTH  
 AND IMA HOGG FOUNDATION

Allocations were made from the Hogg Foundation for Mental Health and Ima Hogg Foundation to the following institutions and agencies:

1. Can-Do-It  
Houston, Texas

Children's Psychiatric Day Treatment Program - \$50,000

The Ima Hogg Foundation is recommending for approval a grant for the period January 1 to December 31, 1986. Can-Do-It has responded to our dollar-for-dollar challenge by securing a \$50,000 matching grant from the Fondren Foundation. Both grants, a total of \$100,000, will be used to help indigent children to get needed day treatment services at programs offered by the Houston Child Guidance Center and the DePelchin Children's Center. This grant goes hand-in-hand with earlier grants to initiate direct service programs at the two community organizations. Ms. Stephanie Smith, Executive Director will be responsible for the administration of the grant.

2. Houston Achievement Place  
Houston, Texas

Vocational Placement Program for Teenagers - \$10,000

The Ima Hogg Foundation is recommending for approval a first-year grant for the period February 1, 1986 to January 31, 1987. Houston Achievement Place serves emotionally disturbed youngsters from the Houston area in a 24-hour residential program. Because of inadequate vocational skills, the graduates of this agency have had problems in the past in making the transition from the group home environment to independent living in the community. The vocational after-care program will help these youngsters find the needed vocational training in the Houston community. Mr. Paul Gifford, Executive Director will be responsible for the administration of the grant.

3. The Mental Health Association of Houston and Harris County  
Houston, Texas

WHO (We Help Ourselves): An Antivictimization Program for School Children and Their Parents - \$7,250

The Ima Hogg Foundation is recommending for support a supplementary grant for the period February 1, 1986 to August 31, 1986. The grant will support the development of a parent/teacher training component for the WHO Antivictimization Program for Children. Our support will match an in-kind contribution from Pearlman Production Company. This grant will be used to develop a video presentation which will be an integral part of a parent/teacher training program. This new component will teach parents and teachers how to respond appropriately to victimized children and will complement the in-school program received by the children. Ms. Betsy Schwartz, Executive Director will be responsible for the administration of the grant.

HOGG FOUNDATION FOR MENTAL HEALTH  
 AND IMA HOGG FOUNDATION  
 (Continued)

4. Teenage Parent Council of Austin, Inc.  
 Austin, Texas

"Stepping Stones" - Service for Pregnant Teens/Teenaged Parents -  
 \$26,278

The Executive Committee of the Hogg Foundation recommends for approval a first year grant for the period February 1, 1986 to January 31, 1987. This program is designed to enable Austin Independent School District junior and senior high school students who are parents or are pregnant to remain in school by assisting them to meet their basic needs through the use of volunteers as advocates and brokers of services. Volunteers will be screened, trained, and matched to one or more youngsters for a one-year period. The teen/advocate pairs will be supported and monitored throughout the term of the project by the program coordinator. Ms. Karen Quebe, Executive Director, will be responsible for administration of the project.

5. U. T. Austin - Department of Sociology

Research on Prison Violence - \$10,729

The Hogg Foundation Executive Committee recommends for approval a third and final grant for the period January 1 through May 31, 1986. These funds will be used to complete a study of psychological stress experienced by inmates and its resolution through acts of violence in Texas correctional institutions. Extensive secondary analyses have been conducted on data compiled by the Texas Department of Corrections and the Attorney General's office. Research findings have been used to produce three scholarly papers, a published article and a manuscript detailing the findings in the historical context and portion of the study. Reports produced thus far have communicated to attorneys for the State of Texas, the Governor's Office, prison officials, attorneys for the plaintiffs, and the monitors established by the courts in Ruiz v. State of Texas. Dr. Sheldon Ekland-Olson will be responsible for the administration of the grant.  
 (RBC D-47)

6. U. T. Health Science Center - Houston - Division of Child Psychiatry

Inhalant Abuse in Hispanic Youth - \$64,668

The Executive Committee of the Ima Hogg Foundation is recommending for approval a grant for the period January 1 to December 31, 1986. This program will provide three levels of treatment for Hispanic inhalant abusers from the Houston area. The Chicano Family Center will be the locus for preventive efforts as well as group and individual treatment for less severely affected clients. The U. T. Health Science Center - Houston will provide both inpatient and outpatient treatment services for the more severe cases. An innovative aspect of the program is the inclusion of a treatment component for pregnant inhalant abusers. Dr. Betty Pfefferbaum, the director of the Division of Child Psychiatry, will be responsible for the administration of the grant.

## HOGG FOUNDATION FOR MENTAL HEALTH

AND IMA HOGG FOUNDATION  
(Continued)

## 7. U. T. Health Science Center - Houston - Division of Child Psychiatry

Developmental Assessment of High Risk Neonates and Neonatal Nursery  
Liaison - \$39,308

The Executive Committee of the Ima Hogg Foundation is recommending for approval a grant for the period January 1 to December 31, 1986. During the next two years the program will serve several hundred premature infants and their families, both in the hospital and after discharge. The services to be provided will include infant assessment, nursery liaison and outpatient follow-up. Dr. Betty Pfefferbaum, the director of the Division of Child Psychiatry, will be responsible for the administration of the grant.

## 8. U. T. Medical Branch - Galveston - Department of Family Medicine

Stress and Mental Health Among Older Adults - \$22,511

The Hogg Foundation recommends for approval a grant for the period February 1, 1986 to January 31, 1987. Only occasionally does an opportunity present itself for longitudinal study of individuals who are initially assessed and who can then be followed up to investigate the consequences of life events or particular stressors that may intervene between the two time periods. Plans to re-interview a random community sample of 350 older adults who were initially interviewed in 1984 should provide a significant data bearing upon the social and psychological resources available to elderly people who are faced with threatening stressors in their environment. The possibility that elderly people with extreme internal and extreme external locus-of-control orientations may be vulnerable to the effects of stress is an important thesis worthy of investigation. Dr. Neal M. Krause, the principal investigator, is responsible for the administration of the project.

## 9. U. T. Health Science Center - Dallas - Southwest Long Term Care Gerontology Center

Research on Long Term Care of the Elderly - \$6,800

The Hogg Foundation is recommending for approval a one-time grant for the period February 15, 1986 to May 15, 1986. These funds will be used to conduct collaborative research between the Center and the Institute for Health and Aging at the University of California at San Francisco on the changes taking place in community-based mental health and long term care services for the elderly as a result of federal and state cost-containment and deinstitutionalization policies. Support is requested to enable these two institutions to combine and compare data on these research issues. The research findings will be presented to service providers and non-profit funders at an Executive Seminar in Dallas. Dr. Charles McConnel, Associate Professor of Gerontology, will be responsible for the administration of the grant.

September 1, 1986	Monday	Labor Day
November 27, 1986	Thursday	Thanksgiving Day

Those employees who wish to observe a religious holiday in addition to the ones cited above may do so by taking a vacation day or by serving as a member of the skeleton workforce on any holiday required by Article V, Section 7c of the Appropriations Bill.

The Appropriation Bill provides that the administrative head may at his or her discretion give an employee a day of leave on the third Monday in January in observance of Martin Luther King, Jr.'s birthday. This day is in lieu of one of the preceding special leave days.

The Appropriations Bill provides ten and one-half (10-1/2) working days of basic vacation allowance for employees of the State to be accrued on the basis of seven (7) hours per month. All regular staff employees will accrue seven (7) hours of vacation leave for each month employed.

The Appropriation Bill also provides that State employees with long-term service shall accrue additional vacation leave in accordance with the following schedule:

<u>Employees With Total State Employment of</u>	<u>Hours Accrued Per Month</u>	<u>Maximum Hours to Carry Forward from One Fiscal Year to Next Fiscal Year</u>
0 but less than 2 yrs.	7	168
2 but less than 5 yrs.	8	192
5 but less than 10 yrs.	9	216

20 and over yrs.	14	336

Although all employees are encouraged to utilize vacation in the year which accrued, employees may carry forward unused vacation from one fiscal year to the next. The schedule presented above indicates maximum carry forward authorized by the Appropriation Bill.

An employee will earn vacation entitlement beginning on the first day of employment with the State and terminating on the last day of duty. Credit for one month's accrual will be given for each month or fraction of a month of employment with the State. Vacation with pay may not be granted until the employee has had continuous employment with the State for six (6) months, although credit will be accrued during that period.

\*\*Skeleton workforce will be on hand.

CATALOGUE CHANGES

The following listing summarizes the changes proposed to the Catalogue of The University of Texas at Austin. These catalogue changes have been passed by the University Council, approved by me, and approved by the Executive Vice Chancellor for Academic Affairs. The complete text of the changes can be found in Documents and Proceedings of the University Council, pages 10243-10249, 10250-10251, and 10252-10253.

School of Law Bulletin for 1984-86

<u>Current bulletin page number</u>	<u>Summary of Proposed Change</u>
34	The minimum failing grade for a School of Law course is changed from 50 to 55. Accordingly, the lowest grade that may be recorded on a student's transcript is 55.
33	Regulations for auditing a School of Law course are clarified. Approval of both the dean and the instructor are required.
36	Policies for retaking failed courses are modified. Under the changes, students must repeat required courses which are failed, but may only do so once. The student is given the option of repeating a failed elective course, but may do so only once. Both the original and subsequent grades are used in calculating the student's average.
34	Policies for postponing examinations are clarified. Approval of the dean is required to postpone an examination. A student who takes a postponed examination without approval of the dean is dropped from the course with a drop symbol. A grade is not recorded.
35	The rules for scholastic probation and dismissal are modified to provide consistency in their application to students who enter the School of Law in a summer semester and to those who enter the School of Law in a fall semester.
30	Earlier this academic year, approval was given to increasing the first-year curriculum for the Doctor of Jurisprudence degree from twenty-nine to thirty semester hours of law. The paragraph on Classification of Students is modified to reflect the change and state that a student is classified as first-year until he or she has credit for thirty semester hours; second-year until he or she has credit for fifty-seven semester hours; and third-year thereafter.

THE UNIVERSITY OF TEXAS AT AUSTIN  
U.T. Board of Regents' Meeting April 10-11, 1986

SPECIAL REPORT ON ENROLLMENT LIMITATIONS.

Enrollment Limitations in Selected Engineering Degree Programs

Limitations on faculty and facilities in two undergraduate (B.S.) degree programs in The University of Texas at Austin College of Engineering -- Aerospace Engineering and Electrical Engineering -- do not permit the admission into these programs of all applicants qualified for admission into The University of Texas at Austin. At the time of their application to The University of Texas at Austin, all freshmen and (undergraduate) transfer applicants to these two programs who meet the minimum qualifications for admission to The University receive a letter from the Office of Admissions informing them of the current enrollment limitations in their selected program areas. The following information is included in a letter from the Office of Admissions to each such applicant.

Due to enrollment pressures, applications for admission to the (PROGRAM NAME)\* major are being reviewed on an individual basis. Although your application is complete and you meet the minimum qualifications for admission to The University, a decision on your admissibility to the major will be deferred until April 1 (for the summer and fall semesters) and November 1 (for the spring semester). Admission to this major will be offered to the best qualified applicants and we will notify you shortly after the deferred date of the decision on your application to the program. Because there are more qualified applicants than can be adequately instructed by the faculty or accommodated within existing facilities, it is necessary to limit enrollment in this program.

\*Aerospace Engineering or Electrical Engineering

All freshmen and (undergraduate) transfer applicants who are qualified for admission to The University but who are denied admission to Aerospace Engineering or Electrical Engineering will be advised of enrollment opportunities in other University undergraduate degree programs, both in the College of Engineering and in other colleges and schools of The University of Texas at Austin.

These enrollment limitations have been approved by the President and the Executive Vice Chancellor for Academic Affairs and are consistent with policies previously approved by the U.T. Board of Regents. The enrollment limitation policies will be communicated to applicants as supplements to the General Information Bulletin and/or college catalogues as appropriate.

## REVISIONS TO THE PARKING AND TRAFFIC REGULATIONS

The Parking and Traffic Regulations recommended for approval by the U.T. Board of Regents have been approved by an attorney in the Office of General Counsel and are based on model regulations approved by that office. These regulations supersede all prior Parking & Traffic Regulations.

SECTION I  
QUICK REFERENCE TO PARKING  
AND TRAFFIC REGULATIONS

1. PERMITS REQUIRED FOR ACCESS & PARKING: Only vehicles conspicuously displaying proper University permits (as specified in Section VI, infra) may enter or park on the main campus Monday through Friday from 7:30 a.m. to 5:00 p.m. Purchase of a permit does not guarantee a parking place on campus (Section II, infra).
2. DISPLAY OF PERMITS: Parking permits must be properly affixed to or displayed on the vehicle(s) as described in Section VI infra. Decals which are taped or affixed by unauthorized materials will subject the holder to a University citation. Additionally, the permit will be revoked and the holder may lose all parking privileges. (Section VIII, infra).
3. HANGING PERMIT: Class A, C and G applicants will be issued one hanging or transferable parking permit. The applicant may transfer this hanging permit to any vehicle he/she wishes; however, the applicant will be responsible for parking violations by the vehicle bearing their permit. (Section V, infra).
4. REMOVAL OF PERMITS: Permits shall be removed when there is a change of vehicle ownership; when association with The University is terminated; when a replacement permit (decal) has been issued to take the place of a previously issued permit (decal); or upon expiration or revocation. (Section VI, infra).
5. OWNERSHIP OF PERMIT: Ownership of the parking permit remains with The University. Purchase of a parking permit signifies that an individual has been granted the privilege of parking a motor vehicle on University property (Section VI, infra).

When no spaces are available a temporary permit may be issued by traffic control station personnel which will authorize parking in other designated areas for limited periods of time. (Section VI, infra).
9. CLASS "F" PERMITS: Holders of Class "F" permits shall park only in the area (lot) designated on their permits, from 7:30 a.m. to 5:00 p.m. Monday through Friday. NOTE: The first two digits of the "F" permit number denote the lot number. Holders may park in other parking areas at other times except when restricted or prohibited by posted signs or markings. When no spaces are available or there is an urgent need, a temporary "F" permit may be issued by The University Police or the uniformed officers in the traffic control stations.  
  
NOTE: Certain spaces have been reserved after these hours for vehicles bearing any current Class "F" permit. These spaces are located and marked as follows (each area is specifically posted as to times/days, etc.):

18. PARKING IMPROPERLY: A vehicle shall not park on a street where angle parking is required, with the back of the vehicle toward the curb, nor shall a vehicle be parked opposite the flow of traffic in the traffic lane where parallel parking is required. Parking wholly within the marked boundaries of the parking space is required at all times. Other improperly parked vehicles do not constitute an excuse for improper parking. Vehicles shall not park as to obstruct walkways, ramps, loading docks, marked crosswalks or to inflict damage to shrubbery, trees, grass, grounds or structures. (Section VII, infra).
19. NO PARKING ZONES: In addition to zones marked by posted signs, ALL yellow-painted curbs or pavements denotes NO PARKING AT ANY TIME.
20. REGISTRATION OF TWO VEHICLES: Holders of Class D, F or O permits may register an alternate vehicle at no extra cost. Holders of Class A, C or G permits may register one additional motorcycle, or moped. (Section VI, infra).  
  
 NOTE: If an alternate vehicle is registered, both vehicles shall not be parked on campus at the same times unless one is parked at a paid parking meter or in the parking garage. If both vehicles are found to be parked otherwise, the alternate vehicle permit will be revoked for the remainder of the permit year. (Section VIII, infra).
21. ENFORCEMENT AND IMPOUNDMENTS: Failure to abide by these regulations may be the basis for disciplinary action against students, and faculty/staff (Section V, infra). Upon notice, violators may subject their vehicle(s) to impoundment pending payment of overdue charges (Section VIII, infra). Students may also be barred from readmission and have grades, degree, refunds or official transcripts withheld pending payment of overdue charges (Section VIII, infra). Vehicles may also be impounded for specific violations. (Section VII, infra).
22. APPEAL OF CITATION: University parking and traffic citations may be appealed, within five (5) working days from date of citation by filing a Citation Appeal Form with the Parking and Traffic Office. (See Section VIII for detailed procedures). Court Appearance citations are handled by the appropriate state or municipal court.
23. VISITORS: All visitors need permits to park on campus UNLESS parked at a paid parking meter; or at The University Visitor Center; or in the Parking Garage. OFFICIAL VISITORS are those who conduct important business with or who are not otherwise eligible for annual parking permits. Official Visitors may obtain temporary visitor parking permits from the guards at the traffic control stations. These permits entitle the holder to park only in a space designated "Official Visitor". Permits must be clearly visible and hanging from the rear view mirror support. (Section VI, infra).
24. PEDESTRIANS-RIGHTS AND DUTIES: Pedestrians are subject to all official traffic control devices. They have the right-of-way at marked crosswalks, in intersections and on sidewalks extending across a service drive, building entrance or driveway. Pedestrians crossing a street at any point other than within a marked crosswalk or within an unmarked crosswalk at an intersection shall yield the right-of-way to all vehicles on said street. Pedestrians shall not leave curb or other place of safety and walk or run into the path

SECTION II  
GENERAL PROVISIONS

Pursuant to the authority granted by Section 51.201 et. seq. 4.005, 54,503, 65.31 and 67.21 of Title 3 of the Texas Education Code, the Board of Regents of The University of Texas System has promulgated Parking and Traffic Regulations to regulate and control parking and traffic and the use of parking facilities, to provide for the issuance of vehicle identification insignia (parking permit), and to provide for jurisdiction over offenses. This booklet contains those regulations and procedures applicable to any who would walk or drive and park a motor vehicle or bicycle on the main campus of The University of Texas at Austin. These rules and regulations are supplementary to the ordinances of the City of Austin and the statutes of the State of Texas which govern pedestrians and the use of motor vehicles and bicycles.

The operation of a motor vehicle or bicycle on The University of Texas at Austin campus is a PRIVILEGE granted by the University and is not an inherent right of any faculty/staff member or student. All faculty, staff and students who have a motor vehicle in their possession or control for use, operation or parking on The University campus must register said vehicle with the Parking and Traffic Office. Registration of a motor vehicle does not guarantee a parking place on campus.

The University is not responsible for fire, theft, damage to, loss of such vehicle parked or operated on The University campus. No bailment is created by granting of any parking or operating privileges regarding a vehicle on any property owned, leased or otherwise controlled by The University.

The administration and enforcement of the regulations contained in this booklet are as follows:

**PARKING AND TRAFFIC POLICIES COMMITTEE:** The standing committee is composed of four faculty, two staff, and two students. Additionally there is a Balcones Research Center (BRC) Committee appointed by the president which consists of representatives from organizations located at BRC. The function of these committees is to advise the President in matters regarding parking and traffic regulations and to review annually the system of priorities for permits issued for parking in restricted areas. These committees are concerned with meeting the parking and traffic safety needs of faculty, staff, students and visitors. Suggestions for changes to the parking and traffic regulations, requests for individual consideration; or any other communication concerning these regulations would be directed to the appropriate committee.

**PARKING AND TRAFFIC APPEALS PANEL:** This panel is composed of faculty, staff and students and rules on review requests (Section VIII, paragraph E, infra); and conducts hearings concerning impoundment or barring from readmission, the withholding of grades, degree, refunds or official transcripts based on overdue charges. (See Section VIII, paragraph F, infra). This panel also rules on

Revisions to the Parking and Traffic Regulations (cont'd):

appeals from proposed suspensions of campus driving and parking privileges (Section VIII, paragraph G, infra).

**PARKING AND TRAFFIC ADMINISTRATION:** This office is responsible for all administrative functions relating to the issuance of parking permits; the collection of administrative enforcement charges for parking and traffic violations; the acceptance of appeals from such violations; the processing of refund requests upon withdrawal from The University; and for the operation of the parking garage. Questions relating to these functions should be directed to Parking and Traffic Administration. Service Building, Room One.

**UNIVERSITY POLICE;** The University Police have the responsibility and the legal authority for the enforcement of the Parking and Traffic Regulations listed in this booklet. University police officers may issue CITATIONS ENFORCEABLE IN COURT (see Section VIII). On special occasions and emergencies, such parking limitations may be imposed by the Chief of The University Police as are required by the conditions which prevail. When conditions warrant such action, the chief may also waive parking limitations which are ordinarily imposed.

The University reserves the right to enforce Parking and Traffic regulations:

1. through the issuance of University citations and the collection of administrative enforcement charges for offenses;
2. through the impoundment of vehicles interfering with the movement of vehicular or pedestrian traffic or blocking a sidewalk, ramp, loading dock, cross-walk, entrance, exit, fire lane or aisle and through the impoundment of vehicles for unpaid charges after proper notice as provided by these regulations.
3. by the suspension or revocation of permits;
4. by requiring either the vehicle owner or the person who has registered the vehicle with The University Parking and Traffic Office, to appear at a University hearing for non-payment of outstanding charges.
5. by barring the readmission and withholding of grades, degrees, refunds and official transcripts of any student, for non-payment of outstanding charges.
6. by disciplinary action against employees or students who fail to abide by these regulations;
7. by denying parking permits to those with overdue charges;
8. by the issuance of Court Appearance Citations requiring an appearance in the appropriate state or municipal court; and
9. by such other methods as are commonly employed by city governments or State agencies in control of traffic regulation enforcement.

Proof of the fact that any parking or traffic control device, sign, parking meter, signal or marking was actually in place at any location on campus of The University of Texas at Austin, Austin, Texas, shall constitute prima facie evidence that the same is official and was installed under the authority of applicable law and these regulations.

When any person is charged with having stopped, parked and left standing a motor vehicle on the campus of The University of Texas at Austin, in violation of any provisions of the Parking and Traffic Regulations of The University of Texas at Austin, proof that said vehicle was, at the date of the offense, bearing a valid University of Texas at Austin parking permit shall constitute prima facie evidence that said vehicle was then and there stopped, parked and left standing by the holder of the parking permit. However, if the vehicle does not bear a valid University of Texas at Austin parking permit, proof that said vehicle at the date of the offense alleged, was owned by an individual is prima facie proof that said vehicle was then and there stopped, parked and left standing by said individual.

The University assumes no responsibility for any vehicle or any duty to protect any vehicle or its contents anytime the vehicle is operated or parked on the campus.

Revisions to the Parking and Traffic Regulations (cont'd):

All vehicle operators are encouraged to lock or otherwise secure vehicle when parked on the campus.

The University may deem a motor vehicle including a motorcycle, moped or bicycle parked on The University campus for more than 48 hours to be abandoned and may dispose of such vehicle as provided in Section 10 of Chapter VII, Part Two of the Regent's Rules and Regulations.

THE UNIVERSITY OF TEXAS AT AUSTIN  
U.T. Board of Regents' Meeting April 10-11, 1986

Revisions to the Parking and Traffic Regulations (cont'd):

A LOST, STOLEN OR FORGED PERMIT SHALL BE an amount equal to the original value of the permit plus any citations issued; and revocation of parking privileges for a period of one year. Other restrictions concerning parking and driving on the Main Campus are shown in Section VII DRIVING AND PARKING OFFENSES.

The absence of sufficient authorized parking space on The University campus during a particular period of time will not be considered as valid justification for violation of parking and traffic regulations. The mere fact that citations are not issued for any offense does not indicate that these regulations have been modified to exclude the offense.

All posted restrictions apply whether or not classes are in session. On designated University holidays, only those parking restrictions which regulate parking at all times shall remain in effect.

Failure to abide by parking and traffic regulations may be the basis for disciplinary action against students and employees. Students may be subjected to penalties ranging from disciplinary probation to expulsion from the Institution as outlined in Section 3 of the Rules and Regulations of the Board of Regents of the University of Texas System, Chapter VI, Part One. Employees may be subjected to disciplinary penalties including termination of employment as outlined in Section 9.48(a) of the HANDBOOK OF OPERATING PROCEDURES.

- A. PARKING AND TRAFFIC CITATIONS: University Police are authorized to issue two types of citations for violation of University parking and traffic regulations:
  - 1. UNIVERSITY CITATIONS - Those handled by The University subject to University administrative enforcement charges and a right to appeal within The University (paragraph E below).
  - 2. COURT APPEARANCE (CA) CITATIONS - Those issued by The University Police but constituting a summons to appear in either municipal court or a justice court. Failure to discharge CA citations may result in the issuance of a warrant for the arrest of such person.
- B. POLICY WITH RESPECT TO COURT APPEARANCE (CA) CITATIONS: The University reserves the right to issue a CA citation for any violation. It is the general policy of The University, however, to issue CA citations at The University's option as follows:
  - 1. For moving violations.
  - 2. For any violation when the individual's driving or parking privileges has been suspended (see paragraph G below)
- C. PROCEDURES FOR UNIVERSITY CITATIONS: University citations are issued for offenses described in Section VII. The administrative enforcement charges are shown. If payment for the charge is not received within twelve calendar days after issuance of the citation, a \$2 late charge will be assessed. If payment is not received within fifteen calendar days after notice has been sent (See Para F below), an additional charge of \$3.00 will be assessed.

Revisions to the Parking and Traffic Regulations (cont'd):

Every person receiving a University citations shall remit the amount of the charge to the Parking and Traffic Office. Payment must be received within twelve calendar days after issuance of the citation, to avoid a late charge.

If a person desires to appeal a University citation, he/she shall comply with Paragraph D below within five working days after issuance of the citation.

Requests for exceptions to the above referenced five working days, will be considered on an individual basis if mitigating or unusual circumstances exist. Such requests shall be submitted in writing to the Parking and Traffic Office and shall detail the reason(s) such a request is being made. Requests based solely on alleged non-receipt of a copy of the citation will not be honored.

Unpaid charges for parking offenses are recorded either in the name of the person in whose name the vehicle is registered with some official state motor vehicle registration department or agency, or in the name of the person who has registered the vehicle with the Parking and Traffic Office.

NOTE: If a student has the same family name and/or home address as the registered owner, then the unpaid charges will also be recorded in the student's name. Unpaid charges for other offenses (e.g. moving violations) are recorded in the name of the person driving said vehicle and in the name of the person who has registered it with the University Parking and Traffic Office and/or the registered owner.

Persons with unpaid charges recorded in their names shall be ineligible to receive a parking permit while such charges remain unpaid. To obtain a permit, a person shall either pay these charges or request a University Hearing.

- D. APPEALS FROM UNIVERSITY CITATION(S): Any person who has received a University citation may file a request to have the citation reviewed. This appeal must be filed with the Parking and Traffic Office no later than five working days after the citation was issued. If an appeal is not filed within this time the citation is deemed final.

Appeals shall be prepared in writing on the "Citation Appeal" form provided by the Parking and Traffic Office. Appeals may be based solely on the written statement or the appealing party may also request a personal appearance. Failure to request a personal appearance or failure to appear at the hearing (as requested) will result in the decision being rendered on the basis of the written statement (including any supporting material submitted) and the information as shown on the citation(s).

Each "Citation Appeal" form will be reviewed by the Manager of the Parking and Traffic Office for a decision and the appealing party will be notified, in writing, of the decision. The Manager may order the payment of the administrative enforcement charge(s) in whole or in part or the cancellation of such charge(s). If the appeal is denied and the appealing party fails to pay the charge(s) or to request a review of the appeal (see paragraph E below) within twelve calendar days from the date of the decision, a \$2 late charge will be assessed on the citation(s).

- E. REVIEW OF APPEAL FROM UNIVERSITY CITATION(S): Any person who has appealed a University citation(s) and who is not satisfied with the initial decision of the Parking and Traffic Office, may file a written request to have the decision reviewed by The University Parking and Traffic Appeals Panel. Such request shall be submitted

THE UNIVERSITY OF TEXAS AT AUSTIN  
U.T. Board of Regents' Meeting April 10-11, 1986

Revisions to the Parking & Traffic Regulations (cont'd):

in writing to the Parking and Traffic Office within twelve calendar days from the date of the original decision.

This written request shall set forth the grounds on which the appealing party believes the decision was improper or inequitable. Such written request shall be submitted in an original plus six legible copies (reproduced copies are acceptable) and include the following:

1. citation number(s);
2. license number of vehicle(s);
3. date of original decision;
4. date review requested; and
5. printed or typed name, address and signature of person requesting the review.

When a review request is filed, the appealing party will be required to post a bond with the Parking and Traffic Office in the amount of the original charge(s) in dispute.

Each review will be considered by a University Appeals Panel consisting of faculty, staff and student members. The Panel may uphold the Manager's decision, or they may reverse the decision in whole or in part, as deemed appropriate.

When the parking and Traffic Office is advised, in writing, of the decision rendered by The University Appeals Panel, the bond will be released and the proceeds will then either be refunded to the appealing party or used to pay the charge(s) then due.

The decision of The University Appeals Panel shall be final.

- F. **IMPOUNDMENT OF VEHICLES, BARRING OF READMISSION AND WITHHOLDING OF GRADES, DEGREES, OFFICIAL TRANSCRIPTS AND REFUNDS:** When unpaid charges are recorded, the Parking and Traffic Administration Office shall send a letter to the last known address of the person in whose name the charges are recorded.

Such letter shall state that unless (1) payment of all accumulated charges is received within twelve calendar days after the date of such letter; or, (2) a written request is received within twelve calendar days to appear before a University hearing concerning impoundment of the vehicle in case of faculty, staff, student or visitor, or for barring of readmission and/or withholding of grades, degree, official transcripts and refunds in case of students as authorized in the Regent's Rules and Regulations, Part One, Chapter VI, Section 9, and state law, the appropriate enforcement action will take place without further notice.

Such a hearing is not an appeal of Parking and Traffic citations but is a limited hearing to allow the individual an opportunity to show that the vehicle in question was not owned, registered or used by the individual or to show that the individual receiving notice of impending sanctions does not have unpaid Parking and Traffic charges.

At such hearing, which will be held after a reasonable period of time, the person requesting the hearing will assume the burden of showing why the appropriate enforcement action should not take place.

If timely payment is not received and either the registered owner or the person who has registered the vehicle with The University has failed to appear at the requested University impoundment hearing, or has appeared and failed to meet his or her burden of proof, the vehicle may be impounded pending payment of all outstanding charges, including towing and storage charges, without further notice.

Revisions to the Parking and Traffic Regulations (cont'd):

If timely payment is not received from a student and the student has failed to appear at the requested hearing or has appeared and failed to meet his or her burden of proof, the student may be barred from readmission and grades, degree, official transcripts and refunds may be withheld, without further notice. Additionally, the vehicle registered to the student may be subject to impoundment.

- G. SUSPENSION OF PRIVILEGE TO DRIVE AND PARK ON CAMPUS: The loss of the privilege of driving or parking a motor vehicle on campus shall commence twelve days after the Parking and Traffic Office mails a letter to the person, at the address of such person as shown in the records of that office, stating that such persons' privilege of driving or parking a motor vehicle on campus has been suspended. Such letter shall state the date on which the suspension commences and the date on which the suspension ends and will give notification of possible impoundment for parking offenses committed during the period of suspension and additionally, shall state the reason for such suspension.

Any person who (a) alters a permit; or, (b) or fails to return a permit when required to do so by these regulations; or, (c) provides false information to obtain a parking permit; or (d) parks or drives a vehicle with a permit which the registered owner, or regular driver, did not purchase.

NOTE: Possession or use of a lost/stolen OR forged parking permit shall result in the loss of parking privileges for twelve months.

While a person's privilege of driving or parking a vehicle on campus is suspended, it is unlawful (1) for that person to drive or park any motor vehicle on campus and (2) for any person to drive or park a vehicle registered in the name of such person on the campus.

If a person whose privilege of driving or parking on campus has been suspended receives a University citation by reason of having a vehicle on campus during the period of his/her suspension, the period of suspension shall be extended so that it expires twelve months from the date the person received such additional citation(s). In addition, the violation of the suspension shall be reported to the Dean of Students if the person is a student, or to the appropriate Dean Director or Administrative Official for possible disciplinary action if the person is a faculty or staff member.

A person receiving notice that his privilege of driving or parking a vehicle on campus has been suspended may appeal the suspension within twelve calendar days on the grounds that the imposition of such suspension is improper, or will create serious and substantial hardship. Such appeal shall be governed by the provisions of Part F above. No appeal shall be considered if there are any unpaid citations outstanding at the time such appeal is filed, unless special arrangements are made with the Parking and Traffic Office.

- H. REMOVAL OF PERMIT WHEN SUSPENDED: Every person receiving notice that his/her privilege of driving or parking on campus has been suspended shall remove the parking permit(s) from every vehicle registered in his/her name and return the remnants thereof to the Parking and Traffic Office within twelve days after date of such notice. Failure to do so shall be reported to the Dean of Students if the person is a student, or to the appropriate Dean, Director or Administrative Official, if the person is a faculty or staff member.
- I. ELIGIBILITY TO OBTAIN NEW PERMIT DURING PERIOD OF SUSPENSION: A person whose privilege of driving and parking on the campus is suspended and not reinstated, shall be ineligible to receive a parking permit of any type during the period of suspension.

THE UNIVERSITY OF TEXAS AT AUSTIN  
 U.T. Board of Regents' Meeting April 10-11, 1986

Revisions to the Parking & Traffic Regulations (cont'd):

- J. TWO VEHICLES ON CAMPUS: When an applicant who has registered two vehicle is found to have both vehicles parked on campus at the same time in violation of the Alternate Vehicle Policy (Section VI, infra), the following shall apply:
1. First Offense - The Parking and Traffic Office shall notify the permit holder that they have violated these regulations and that any further violation will result in the loss of the permit for the alternate vehicle. Additionally any citation(s) which may have been issued is due and payable.
  2. Second Offense - The Parking and Traffic Office shall notify the permit holder that he/she has again violated these regulations. Such written notice will inform the permit holder that he/she must surrender the permit from the alternate vehicle in addition to making payment for any citations (s) which may have been issued for this offense. Additionally the permit holder shall not be able to register an alternate vehicle for the remainder of the current permit year. Failure to abide by this second notice will subject the permit holder to all enforcement sanctions including those described in Section V.
- K. IMPOUNDMENT: The term "impoundment" includes removal or immobilization of the vehicle in question.

In addition to any charge that may be levied by The University for an offense resulting in removal or immobilization, the owner of an impounded vehicle must also pay a commercial wrecker service fee and storage charges after the first 24 hours. When an IMPOUND VIOLATION occurs and the owner or driver of the vehicle appears on the scene before the arrival of the wrecker, the vehicle will not be impounded. If the owner or driver appears on the scene after the arrival of the wrecker and the wrecker driver has made a hook-up, the following will apply:

1. the vehicle will not be impounded; and,
2. the owner or driver will be expected to pay the wrecker driver a fee, in lieu of towing.

If the vehicle is impounded the registered owner or permit holder will be sent a notice at the address on file.

## U. T. BOARD OF REGENTS' MEETING

APRIL 10-11, 1986

## AMENDMENTS TO THE 1985-86 OPERATING BUDGET

The term "rate" for academic personnel is the full-time nine-month base rate; for all other personnel it is the full-time twelve-month rate, the appointee receiving a proportionate amount depending upon the fraction of time for which he is appointed and the period of his appointment. Source of funds for payment of salaries, unless otherwise shown, is the departmental salaries account, including the Available University Fund.

AUXILIARY ENTERPRISES

The changes in status for the following physicians stem from the recent reorganization of the Student Health Center in which the time factor for physicians is set at 75% resulting in the following arithmetical adjustment of annual rates. Stipends are paid on the basis of the assigned fractions of time and period of appointment.

It is necessary to make this adjustment to attract and retain high quality physicians. With this change in appointment percentage without a reduction in salary, the actual pay rate we offer to a 75% time physician is more competitive. A survey conducted of comparative state universities revealed the following salaries for 30 hour/week physicians.

Nebraska	\$41,250-45,000	Minnesota	\$41,250-48,750
Oklahoma	\$41,250-51,750	Kansas	\$41,250-45,000
Indiana	\$36,375-45,000

RESIDENCE CLASSIFICATION

Residence status is determined by statutory provisions of the Texas Education Code and rules and regulations of the Coordinating Board, Texas College and University System. Students are responsible for registering under the proper residence classification and for notifying officials of the institution if their classification changes at any time during their enrollment.

The University may request that a student complete a residence questionnaire if the student is claiming Texas residency for tuition purposes.

Classification for Tuition Purposes

Nonresidents who may qualify to pay tuition at the resident rate without regard to the length of residence in Texas include:

- (1) Military personnel assigned to active duty in Texas and their spouse and children;
- (2) Faculty employed at least one-half time on a regular basis at a state institution of higher education and their spouse and children;
- (3) Teaching or research assistants, employed at least half-time in a position which is related to the assistant's degree program under institutional regulations, and their spouse and children;
- (4) A student who holds a competitive academic scholarship for at least \$200 which was awarded in competition with Texas students by a scholarship committee officially recognized by the administration and approved by the Coordinating Board, Texas College and University System.

Nonresidents will pay \$120 per semester credit hour during the 1985-86 and 1986-87 school years. Tuition for nonresidents is determined by the Coordinating Board, Texas College and University System, based upon the current "cost of education."

See Residence Classification in the Appendixes.

Catalog Changes (continued)  
April 10-11, 1986 Meeting

Tuition Installments

Students have the option of paying tuition and fees in full at registration or by installments through the following alternatives:

- (1) one-half payment of tuition and fees in advance of the beginning of the semester (registration) and one-half payment prior to the start of the eighth class week; or
- (2) one-fourth payment of tuition and fees in advance of the beginning of the semester (registration) and one-fourth payments prior to the fourth, eighth, and twelfth class weeks.

A fee of \$15 will be assessed for handling of installment payments of tuition and fees, and a \$10 fee will be assessed for each late payment.

Late payments will result in one or more of the following penalties:

(a) the student's being barred from class until payment is made; (b) withholding of credit if payment is not made by the end of the semester, with the University adjusting records to reflect the student's failure to have properly enrolled for that semester; or (c) bar against readmission and withholding of grades, degree and official transcript.

[Footnote]

Tuition and fees are subject to change at any time by Legislative or Regental action.
