HOGG FOUNDATION FOR MENTAL HEALTH

Allocations were made from the Hogg Foundation for Mental Health Trustee Approved Program Support account to the following institutions and agencies:

1. Baylor College of Medicine, Department of Psychiatry

Research on Psychosocial Models of Psychiatric Disorders - \$23,715

The Hogg Foundation Executive Committee recommends for approval a one-time grant of \$23,715 for the period May 1, 1983 through October 31, 1984 to the Department of Psychiatry at the Baylor College of Medicine. This grant is for support of research designed to test psychosocial models of psychiatric disorders. The grant will be used to analyze a unique set of longitudinal data gathered at various points between 1971 and 1983. The Foundation's funds will be used to support a 2/3 time research associate for the 18 month period and for computer time and office supplies.

The goals of the research are to (1) identify risk factors which generalize to a variety of psychiatric disorders, (2) identify risk factors that generalize across social identity categorizations, and (3) identify risk factors associated with particular disorders and with particular social categories. The proposed study has the potential of going beyond previous research because of its very unique data set. Subjects responded to questionnaires when they were in the seventh grade in Houston in 1971 and are being interviewed again in an extensive follow up. The response rate for the 1981-83 follow up is surprisingly successful (about 58 percent with and N of about 2,400). In addition to the questionnaire and interview data, the researchers have acquired mental health outcome data from both the Harris County and the State Department of Mental Health-Mental Retardation. About 200 of their respondents have use of these public mental health services and the investigators have information on them.

Dr. Howard Kaplan, Professor and Director of the Sociological Research Laboratory at Baylor, is responsible for the administration of the project. He will submit an interim progress report in May, 1984 and a final report and complete fiscal accounting statement no later than December 1, 1984.

2. Welcome House, Inc., Dallas, Texas

Support Program for Indigent Female Alcoholics - \$13,000

The Hogg Foundation recommends for approval a one-year grant of \$13,000 for the period February 1, 1983, through January 31, 1984, to Welcome House, Inc., of Dallas.

In September, 1982, the Hogg Foundation offered a challenge grant of \$13,000 to be met on a dollar-for-dollar basis with funds from the local community. This challenge has been met and exceeded by the board and staff of Welcome House, Inc. The joint financing will help Welcome House in expanding and strengthening support services for female alcoholics who are in residence at the facility. These women, for the most part, have little skills and no local funding to aid them in their transition to meaningful work and life experiences. Among the many objectives of the program is the carrying out of medically supervised physical and the psychological plans for the patients; this period is followed by evaluation of educational and vocational skills and the development of an appropriate service plan. A unique factor of Welcome House, Inc., is that it has been in operation for nearly 18 years, and this is the first request the organization has made for foundation funding. As a rule, the board has stayed away from both foundation and tax support.

HOGG FOUNDATION FOR MENTAL HEALTH (Continued)

2. Welcome House, Inc., Dallas, Texas (Continued)

However, through the close collaboration between Welcome House and the Dallas Council on Alcoholism, a plan was made whereby Welcome House would seek to professionalize and regularize its counseling services. With the Dallas Council Support, this proposal was submitted to the Hogg Foundation for funding. The community response to the challenge indicates to the Hogg Foundation Executive Committee that the program is well accepted in the community and will have continuing viability in spite of the general downturn in support of such facilities.

Mr. Don Johnson, Executive Director of Welcome House, will be responsible for administration of the grant. He will submit an interim report in August of 1983 and a final fiscal accounting and evaluative summary in February, 1984.

3. Houston Independent School District

Health Care and Functioning Among Children in Special Education - \$9,000

The Hogg Foundation recommends for approval a grant of \$9,000 for the period February 1, 1983, to December 31, 1983. This grant is for support of the Houston Independent School District's collaborative study of preschool children with special needs, as an extension of a major study already underway of handicapped children in regular school grades, supported by the Robert Wood Johnson Foundation and the Boston Commonwealth Fund. While the larger national study is restricted to children in grades kindergarten through sixth, the techniques employed can be used for interviews and data collection from parents with preschool handicapped children, as well.

The data collected from a stratified sample of 100 preschool children with handicapping conditions and known emotional and behavioral problems will provide a basis for program planning of special services through the Houston schools. The emotional trauma and crises faced by families with disturbed preschool children require special study and careful planning if services are to be provided that can prevent long-term problems from developing. The special protocol for standardized interviewing of parents through the University of Illinois will give a basis for interpretation of these data in a normative context far beyond the local sample of preschool children and their families. The Hogg Foundation's grant will be used primarily for payment of the interviews of the parents, teachers, and health care providers in the study. Some funds are also earmarked for materials and communications, recognizing that a major contribution is being made by staff and resources within the Houston Independent School District.

Dr. Patricia M. Shell, Superintendent for Instruction of the Houston Independent School District, is responsible for the administration of this program. She will submit a preliminary report in early fall, 1983, and a final report and fiscal accounting by early 1984.

HOGG FOUNDATION FOR MENTAL HEALTH (Continued)

4. Hill Country Senior Citizens Activity Center

Evaluation of the Hill Country Senior Citizens Activity Center - \$682

The Hill Country Senior Citizens Activity Center, organized in 1976, has expanded its program from a weekly congregate meal center to an area of telephone reassurance, transportation, health screening, information and referral, and home delivered meals. An arts and crafts industry has been instituted, and a teaching nursing home facility is being added.

In order to gauge the effectiveness of the program, the Center director has asked the Hogg Foundation for a grant of \$682 to pay half the costs of a professional evaluation of the program. The Hogg Foundation recommends funding this portion of the evaluation. Mrs. Rose Duvall, who is responsible for the administration of the project, will submit a copy of the results within three months.

5. Texas Department of Mental Health and Mental Retardation

Case Management Manpower Development and Training - \$26,800

The Hogg Foundation Executive Committee recommends for approval a one-time grant of \$26,800.00 for the period February 1, 1983 through October 1, 1983, to the Texas Department of Mental Health and Mental Retardation. This grant is for partial support of the development and implementation of a statewide case management manpower development and training project. The Foundation's grant will be matched by in-kind support of \$97,994.00 by TDMHMR.

Case management has been given a major emphasis by the new TDMHMR Commissioner, who has written extensively on this process and has successfully implemented it elsewhere. Its goals are several, but its major function is to implement the concept of continuity of care espoused by both the Texas Legislature and the state MHMR Board. The project activities will be organized around two general areas: (1) designing, developing and implementing a case management personnel classification and career development system and (2) developing its related job analysis and training elements.

Dr. Gary Miller, Commissioner of the Texas Department of Mental Health and Mental Retardation, is responsible for the administration of the project. He will submit a final narrative report and fiscal accounting statement no later than December 1, 1983.

6. The University of Texas at Austin, Department of Home Economics

Intervention Program for Preschool Children - \$17,824

The Hogg Foundation is recommending for approval a one-time grant in the amount of \$17,824 to the Department of Home Economics at The University of Texas at Austin for the period June 1, 1983 through May 31, 1984.

The Hogg Foundation support will enable two researchers to prepare a manual for the specific means of working with young children and for training those people who will be carrying out the project. The classroom observations of children's social interactions have direct mental health implications. Drs. Nancy Hazen-Swann and Carol Wegley Brown, co-principal investigators of the project, will submit a final narrative summary and detailed fiscal accounting no later than June 30, 1984. Progress and final reports will be submitted to the Hogg Foundation.

HOGG FOUNDATION FOR MENTAL HEALTH (Continued)

7. The University of Texas at Austin, School of Social Work

Impact of Political and Economic Changes Upon the Field of Mental Health in Texas - \$1,436

The Hogg Foundation Executive Committee recommends a supplemental grant in the amount of \$1,436.00 for the period March 1 through May 31, 1983 to The University of Texas at Austin School of Social Work. This grant will enable Dr. Bertram Brown's secretary and research associate to continue the Austin-based segment of his research on the impact of budget cuts on the field of mental health in Texas.

Dr. Bertram Brown, Robert Lee Sutherland Professor of Mental Health and Social Policy, will continue as the principal investigator, but the funds will be administered by Dean Martha Williams and the secretary's work supervised by Mr. Michael Zent, Hogg Foundation Research Associate. Dr. Brown will submit a final report and complete fiscal accounting statement at the end of the grant period or no later than June 30, 1983. (RBC-H13)

8. The University of Texas at Austin, School of Social Work

Interrelationship of Litigation, Texas State Government, and Mental Health Advocacy - \$16,194

The Hogg Foundation recommends for approval a one-year grant of \$16,194 for the period February 1, 1983, through January 31, 1984, to The University of Texas at Austin School of Social Work. These funds are in support of a research project to be conducted by Dr. Kathryn Moss to examine the interrelationship of litigation, Texas state government, and mental health advocacy.

The recent history of changes in the delivery of mental health services is full of examples of the potentially adversarial relationships among those persons involved in the system. The Texas Department of Mental Health and Mental Retardation has experienced several situations wherein administrative change was made necessary by court decisions. The proposed research has as its aim the early detecting of needed changes in Texas' mental health system. By studying earlier mental health institutional lawsuits and their goal in the changing administration of programs, the research can give important guidance to state agencies and to the advocacy groups involved in making better mental health services. The significance of such a study is especially great in these times of changing institutional relationships and may lead the way to increased cooperation among the interested parties.

Dr. Kathryn Moss of the School of Social Work will be responsible for the administration of the project. She will submit an interim progress report not later August 31, 1983, and a final fiscal accounting and evaluative report in February, 1984. (RBC-H11)

IMA HOGG FOUNDATION

9. Houston Child Guidance Center

Family Crisis Intervention Program - \$34,774

The Ima Hogg Foundation is recommending for approval an eight-month grant in the amount of \$34,774 for the period January 1, 1983, to August 31, 1983 to the Houston Child Guidance Center. The grant would support the design and implementation of a Family Crisis Intervention service at the center. We are also recommending that \$40,714 be set aside as a base-level of support for a second phase of the project. If the service develops satisfactorily, the Ima Hogg Foundation may be asked to make a substantial multi-year grant which could reach as high as \$700,000 over a five year period.

This new program is innovative in many ways. There is no comparable service offered anywhere in Houston despite the great number of family crises precipitated by adolescent disturbances each year. The program would provide a multidisciplinary crisis team comprised of child psychiatrists, psychologists, and social workers available on a 24-hour basis to work with disturbed adolescents and their families. The initial contact will occur in the Emergency Room at Hermann Hospital and aftercare services would be delivered at the Child Guidance Center. One of the major strengths of the program is the involvement of many Houston organizations interested in the mental health of children. Other agencies may provide referrals or receive referrals and their staffs may participate as part of the multidisciplinary team. The cooperation of many institutions and organizations to deliver this program will represent a great step forward in the provision of mental health services to the children of Houston. This cooperation also addresses a major concern of the Ima Hogg Foundation--the development of linkages between organizations.

Dr. Jay Tarnow, the director of the Houston Child Guidance Center, will be responsible for the administration of the project and will provide the Ima Hogg Foundation with an interim progress report and request for stage-two funding prior to August of 1983.

10. Meadowbriar Home for Girls, Houston, Texas

Prevention--Early Intervention Program for Pre-delinquent Youngsters - \$33,200

The Executive Committee of the Ima Hogg Foundation is recommending for approval a first-year grant of \$33,200 for the period February 1, 1983 to January 31, 1984 to Meadowbriar, a home for pre-delinquent girls. We are also recommending that \$27,600 for a second year and \$21,850 for a third year of funding be set aside at this time.

Meadowbriar provides 24-hour residential care for up to 48 pre-delinquent adolescent girls in the Houston area. The agency provides a variety of services for the youngsters including individual and family therapy. This series of Ima Hogg Foundation grants will support two new components at Meadowbriar. The first is a follow-up care service which will track the young women graduating from Meadowbriar and help them to adjust to a more independent living environment. A second portion of the grant will be designated for a training component which will include two student stipends as well as the requisite therapy supervision. The training efforts will not only enhance Meadowbriar's ability to deliver services, but will also increase the number of qualified mental health service providers in the Houston area.

Mrs. Suzanne Cuthbertson, the Executive Director of Meadowbriar, will be responsible for the administration of the project and will provide the Ima Hogg Foundation with a progress report, fiscal accounting, and request for second-year funding no later than January of 1984.

IMA HOGG FOUNDATION (Continued)

11. DePelchin Faith Home, Houston, Texas

DePelchin Faith Home Staff Development and Program Evaluation - \$8,187

The DePelchin Faith Home has requested a fifth and final grant in the amount of \$8,187 for their Bayou Place residential treatment program. This program meets a vital need in the Houston area--that of providing 24 hour residential treatment for 30 seriously disturbed children. The grant will be used primarily for the staffing of the Diagnostic/Acute Care Project and for psychiatric consultation from Baylor Medical School.

The Ima Hogg Foundation Executive Committee recommends funding of this project as requested in the amount of \$8,187 for the period January 1, 1983 to December 31, 1983. Mr. Robert Barker and Ms. Marsha Henderson, who are responsible for the administration of the project, will submit a final narrative evaluation and fiscal accounting of the program at the close of the grant period.

12. Sand Dollar, Inc., Houston, Texas

Community-Based Youth and Family Counseling Services - \$37,000

The Ima Hogg Foundation recommends for approval a one-year grant of \$37,000 for support of a community-based youth and family counseling services program of Sand Dollar, Inc. The grant period is from February 1, 1983, through January 31, 1984, and funds are to be used for the part-time support of a program director, clinical coordinator, family therapist, intake coordinator, and secretary.

The community-based youth and family counseling services program is an innovative expansion of crisis intervention and family therapy directed at runaway, cast-off, and homeless children in the Houston area. Coupled with the previous experiences of the organization's runaway shelter, the new services provide 24-hour access to crisis counseling, information and referral, telephone counseling, legal referral, and individual counseling. Arrangements with other social services agencies in the Houston area allow the establishment of satellite centers in underserved neighborhoods in Harris County. Previous experience of Sand Dollar, Inc., permits realistic projections for the services becoming nearly self-sufficient after this initial 12-month support from the Ima Hogg Foundation. However, the current funding situation nationwide is so unsettled that future funding may be considered as necessary and appropriate based upon the first year's experience.

Mr. Roger D. LaFollette, Director of Sand Dollar, Inc., will be responsible for the administration of the project. He will submit an interim progress report in August, 1983, and final fiscal accounting and evaluative summary by February 28, 1984.

PROPOSED CHANGES TO THE COLLEGE OF FINE ARTS PART
OF THE U.T. AUSTIN CATALOGUE, 1981-1983, TO BRING
UNDERGRADUATE DEGREE PROGRAMS WITHIN THE SPIRIT OF THE
REPORT OF THE COMMITTEE ON BASIC EDUCATION REQUIREMENTS

J. Robert Wills, Dean of the College of Fine Arts, filed with the Secretary of the University Council the two documents set forth below. The first document proposes amendments to various sections of the College of Fine Arts Catalogue in order to bring its undergraduate degree requirements within the spirit of the report of the University Council Committee on Basic Education Requirements (D&P 8148-8166). The second document presents a summary showing how the amended degree programs comply with the Committee's report. The changes should appear in the 1983-1985 College of Fine Arts Part of the U.T. Austin Catalogue. The proposed changes were circulated among the faculty of the College of Fine Arts and approved by the Dean of that college on December 3, 1982. The Secretary of the University Council classified the proposed changes as emergency legislation.

The proposed changes were approved in the form set forth below by the University Council on December 13, 1982.

H. Paul Kelley, Secretary
The University Council
