DELETION OF CLASSIFIED MATERIAL INCORPORATED IN ORIGINAL DEPARTMENT OF DEFENSE CONTRACTS:

The following list of four contract numbers covers expired classified contracts between various agencies of the Department of Defense and the University. These contracts carry expiration dates ranging from May 1960 through November 1961.

- AF 08(603)-4396
- AF 33(616)-5164
- AF 33(616)-7307
- NOrd-16382

Under the terms of the Department of Defense Industrial Security Manual for Safeguarding Classified Information, which is applicable to these contracts, the Contractor (University) may not retain classified material beyond the time required by the "Records" clause of the contract. Under the contract "Records" clause, the University is required to maintain its fiscal and related contract records for a period of three years after final payment under the contract. Thereafter, the government is precluded from further audit. The University Auditor advises that full payment has been made under the contracts, that the "Records" clause of the contracts has been satisfied and that he has no objection to the deletion of the classified portions of these contracts. It is now necessary that we delete those classified sections of the contracts which primarily describe the technical work that was performed under the contracts. I recommend that the Board of Regents authorize the deletion of the classified portions of the above contracts.
