1983-84 HOLIDAY SCHEDULE AND VACATION ALLOWANCE

The Appropriations Bill for fiscal year 1983-84 provides for those holidays specified in Article 4591, Vernon's Texas Civil Statutes, as amended. Article 4591, authorizes fourteen (14) holidays plus a holiday on each day on which a State-wide election is held. In fiscal year 1983-84, the total is fifteen (15) days including the day on which a State-wide election is held. The Appropriations Bill also provides for an additional three (3) days of special leave time, specifying the day following Thanksgiving and the day before and after Christmas Day.

During the 1983-84 fiscal year, three (3) of the specified holidays fall on either Saturday or Sunday and cannot, therefore, be observed. Also, following our past practice, we are reallocating twelve (12) hours (1½ days) from holiday time to vacation time in lieu thereof. The balance available for holidays will therefore, be reduced by a total of twelve (12) hours resulting in ten and one-half (10½) days, the observance of which can be adjusted in order to provide more effective work schedules (Article 4591.3, Vernon's Texas Civil Statutes). Added to these ten and one-half (10½) holidays are two (2) of the three (3) days indicated in the preceding paragraph, namely November 25 and December 26, which are identified as special leave days. December 24, 1983 falls on Saturday and cannot be observed.

The results of the foregoing action will provide in 1983-84 twelve and one-half (12½) holidays and special leave days, and a total of twelve (12) working days annual vacation leave for University employees with less than two (2) years service. Vacation accrual for each of the other categories of service will be accordingly increased by one and one-half (1½) days (12 hours). See the following schedule:

<u>Employees With Total State Employment Of:</u>	<u>U.T. System Administration Hours Accrued Per Month</u>	<u>Maximum Hours To Carry Forward From One Fiscal Year to Next Fiscal Year</u>
0 but less than 2 years	8	168
2 but less than 5 years	9	192
5 but less than 10 years	10	216
10 but less than 15 years	11	240
15 but less than 20 years	13	288
20 and over years	15	336

Although all employees are encouraged to utilize vacation in the year which accrued, employees may carry forward unused vacation from one fiscal year to the next. The schedule presented above indicates maximum carry forward authorized by the Appropriations Bill (the one and one-half [1½] days for holidays converted to vacation time must be taken in the 1983-84 fiscal year).

1983-84 HOLIDAY SCHEDULE AND VACATION ALLOWANCE (Continued)

I recommend for the twelve and one-half (12½) holidays and special leave days the following dates to be observed for fiscal year 1983-84:

<u>Date</u>	<u>Holiday</u>	<u>Day of Week</u>

*Sufficient personnel must be present for the conduct of official public business in accordance with Article V, Section 7.c of the Appropriations Bill. Personnel comprising the skeleton workforce will be granted compensatory time in lieu of the holiday.

An employee who wishes to observe an additional religious holiday or holidays may do so in lieu of any holiday or holidays for which the employee serves as a member of the skeleton workforce required by Article V, Section 7.c of the Appropriations Bill, or by taking vacation leave.

THE UNIVERSITY OF TEXAS SYSTEM
CONTRACTS AND GRANTS FOR RESEARCH, DEVELOPMENT
AND EDUCATIONAL SERVICES - FEDERAL (FUNDS COMING IN)
BOARD OF REGENTS MEETING - AUGUST 11-12, 1983

The following interagency contracts have been awarded and are submitted for formal approval of the Board of Regents:

1. Agency: Office of Naval Research
Contract No.: N00014-79-H-0023 Revision #5
New Funds: Not Applicable
Contract Period: Effective January 1, 1983
Description: This revises the Basic Agreement, originally effective January 1, 1979 to comply with the current requirements of the Defense Acquisition Regulations and to incorporate the required updated clauses to the Agreement. Individual contracts between the component institutions of The University of Texas System and the Department of Defense may be negotiated under this Basic Agreement.

THE UNIVERSITY OF TEXAS SYSTEM
 HOGG FOUNDATION FOR MENTAL HEALTH
 BOARD OF REGENTS MEETING - AUGUST 11-12, 1983

Allocations were made from the Hogg Foundation for Mental Health to the following institutions and agencies:

1. Institute of Human Development and Family Studies
 The University of Texas at Austin

Impact of Mexican Culture & Economic Stress Upon Mental and Physical Health - Phase II - \$32,120

The Hogg Foundation Executive Committee is recommending a grant of \$32,120 to the Institute of Human Development and Family Studies at UT-Austin in support of a research project entitled "Impact of Mexican Culture and Economic Stress upon Mental and Physical Health: Phase II."

The recent economic crisis in Mexico with the massive unemployment and peso devaluation provides an unparalleled opportunity to study the impact of economic stress upon mental health among the 60 Monterrey families that were studied five years ago by the Institute. A follow-up study of both the 60 families in Monterrey and a comparable group of 60 families in San Antonio will provide a rigorously controlled study that would not have been possible if the earlier data had not been carefully collected and analyzed. Repeated measures of these same individuals will give the kinds of longitudinal data necessary to determine the impact of economic stress upon health and sickness and upon the mental health of both parents and children within these families. Dr. Manuel Ramirez will serve as Director of this project.
 (RBC# H21)

2. Department of Psychology
 Texas Tech University

Longitudinal Study of Relationship Development and Change - \$12,331

The Hogg Foundation Executive Committee recommends for approval a one year grant of \$12,331.00 for the period September 1, 1983 through June 30, 1984, to the Department of Psychology at Texas Tech University. This grant is for support of the first year of a five year longitudinal study of relationship development and changes among engaged, married and divorced couples. Future funding is not committed at this time, although the Foundation would consider a much smaller second year grant contingent upon a very promising first year report.

The focus of the study will be on how couples maintain long-term bonds, the factors contributing to the maintenance or to the dissolution of the relationship and on why unhappy marriages continue. Similarities and differences among Anglo and Hispanic couples will also be investigated. Couples will be interviewed during the first year, and short questionnaires will be administered every six months for the following four and a half years. The longitudinal nature of this study will enable it to go beyond the extant literature, which is mainly based on cross sectional findings. The project also complements (but does not duplicate) another project which the Foundation is funding at the Timberlawn Foundation. Dr. John H. Harvey, Chairman of the Department of Psychology at Texas Tech University, will be the project director.

3. Department of Psychology
Texas Tech University

Educating for Mental Health Services - \$12,346

The Hogg Foundation Executive Committee recommends for approval a one-time grant of \$12,346, for the period June 1, 1983 through August 31, 1984, to the Department of Psychology at Texas Tech University. This grant is for the development and evaluation of a videotaped client preparation for psychotherapy. Its goal is to reduce drop out rates among Mexican-American outpatient clients.

Dr. Robert P. Anderson, Project Director has evaluated eight different types of preparation programs and using three criteria--effectiveness, generalizability and economy--has suggested the desirability of film or videotape models. Moreover, he and his colleagues have already produced and evaluated an intake videotape for Anglos. This logical extension of his work will be of benefit to Community Mental Health Centers and their clients throughout the state. Hispanic mental health professionals will help with the development of the videotape content and student research assistants will be employed to aid in its evaluation.

4. Creative Services for the Elderly, Inc.

Multi-Cultural Enrichment Program - \$14,984

The Hogg Foundation is recommending for approval a one-time grant in the amount of \$14,984.00 for the period June 2, 1983 to July 15, 1983 to Creative Services for the Elderly, Inc. for support of its Multicultural Enrichment Program.

Hogg Foundation funds will be used to pay staff salaries, reimburse personal car mileage of the counselor/outreach worker, purchase consumable materials, and provide travel for two field trips. The program is designed to expose 100 inner city children of women receiving Aid to Families with Dependent Children (AFDC) to the arts, to concepts of economics, and to civic and social responsibilities by interaction with people who display good citizenship techniques in an effort to improve self-concept and develop both moral and spiritual growth. Seven (7) senior citizens and six (6) recipients of AFDC will be employed to help work with the youngsters. The children served in the program are those who have records of troublemaking, vandalism, or truancy in their schools; or who have no supervision at home during the day because their parent works. Mr. Sam Seward, President of Creative Services for the Elderly, Inc., will be responsible for administering the project.

5. March of Dimes Birth Disabilities Center - Houston, Texas

March of Dimes Birth Disabilities Center - \$10,000

The March of Dimes Birth Disabilities Center has requested a third and final grant of \$10,000 to support their program to serve children with birth disabilities. This important service utilizes a multidisciplinary team to meet the needs of these infants and help their families in coping with the demands of raising a severely-disabled child. During the past year, the Center has increased their caseload considerably and currently serves 49 families. The grant from the Ima Hogg Foundation will provide partial salary support for the Director of Patient Services, Ms. Riki Weinstein. As in previous years, the Foundation's grant will go hand-in-hand with major commitments by the March of Dimes and the University of Texas Health Science Center at Houston.

The Ima Hogg Foundation Executive Committee recommends the funding of this project as requested in the amount of \$10,000 for the period September 1, 1983 to August 31, 1984. Dr. Luther Robinson, Director, will be responsible for the administration of the project.

6. Mental Health and Mental Retardation Authority of Harris County -
Houston, Texas

Adolescent Day School - \$18,000

The Mental Health and Mental Retardation Authority of Harris County has requested a fifth and final year's grant of \$18,000 to provide part of the salary for a certified therapist and a caseworker for the period May 16, 1983 to May 15, 1984. These individuals help deliver a much needed service to adolescents in the Harris County area. The program currently serves 16 disturbed adolescents. The Day School has been very effective in dealing with these youngsters and has established itself as an integral part of the network of mental health services for children in Houston and Harris County.

The Ima Hogg Foundation Executive Committee recommends funding of this project as requested in the amount of \$18,000 for the period May 16, 1983 to May 15, 1984. Dr. David Diehl is responsible for the administration of the project.

7. Settlement Club Home

Vocational Placement Program for Emotionally Disturbed Adolescents -
\$10,000

The Hogg Foundation Executive Committee has reviewed the first year report of this project and is now recommending for approval the second of this three-year grant. These funds will continue to assist in the development of a demonstration project for a vocational placement program for emotionally, disturbed children. The goal of the program is to provide vocational experience and career planning under careful supervision for emotionally disturbed youth without families to prepare them for independent living in the work world. Bobbie Mae Matthews, Executive Director of the Settlement Club Home, is responsible for administration of this program.

8. Urban Affairs Corporation

Adolescent Primary Health Care Center - \$2,260

The Urban Affairs Corporation has requested a supplemental grant in the amount of \$2,260 to aid the staff of the Adolescent Primary Health Care Center in gathering information on their client population. Ms. Chris Galavotti, a doctoral candidate in Community Psychology at The University of Texas and former Hogg Foundation Evaluation Fellow will aid the Center in their research efforts. Ms. Galavotti has been involved in providing the Center with technical assistance during the past year and is highly qualified to continue in that capacity. The information gathered during the next six months will enable the Center to greatly improve their services to teenage mothers and their infants in the Houston area.

The Ima Hogg Foundation is recommending for approval a grant of \$2,260 for the period June 1, 1983 to December 31, 1983, to the Urban Affairs Corporation. Ms. Donna Bryant, Executive Director of the Urban Affairs Corporation and Ms. Sharon Lovick, Project Manager of the Adolescent Primary Health Care Center will administer the funds.

CATALOG CHANGES

The following changes have been recommended for the 1983-85 Undergraduate Studies Catalog. I recommend approval.

DEGREE CHANGES	FROM	TO
1. Bachelor of Business Administration	123	124
Reason: The Business Core requirement was changed from 36 to 37 hours because the credit hour value of a required Computer Information System was changed from 3 to 4.		
2. Bachelor of Science in Education	132	133
Reason: The credit hour value for a required course in Multicultural Education was changed from 2 to 3.		
3. Bachelor of Science in Computer Science - Business Option	130	133
Reason: The credit hour value for a required Computer Science course was changed from 3 to 4.		
Bachelor of Science in Computer Science - Computation Option	127	132
Bachelor of Science in Computer Science - Computer System Option	127	133
Reason: The changes in the above two options were dictated by increased demands for expertise on the part of graduates; in each case, a course was added to the curriculum and the credit hour value of several Computer Science courses was raised to include laboratory hours.		
4. Bachelor of Science in Engineering - Electrical Engineering (Computer Engineering Option)	129	134
Reason: The credit hour value of several Computer Science courses was raised in order to include laboratory work.		
Bachelor of Science in Engineering - Industrial Engineering	133	134
Reason: A required course in Computer Science was changed to increase the credit hour value from 3 to 4.		
Bachelor of Science in Engineering - Mechanical Engineering	130	134
Reason: A required course in Computer Science was changed to increase the credit hour value from 3 to 4. Also, ME 3101 to Introduction to Mechanical Engineering, was added to the requirement.

Degree Changes - Cont'd

Bachelor of Science in Engineering - Metallurgical Engineering 132 131

Reason:

The Metallurgy degree has been completely reworked, for both academic and professional reasons, along with a general overhaul of course offerings. A number of course requirements were changed, the incidental net result of which is a one-hour reduction in total hours.

5. Bachelor of Arts

- New concentration in Chicano Studies requiring 18 hours of coursework

Reason:

This concentration area will complement academic majors in a variety of disciplines. It is designed for those students who wish to add to their academic record evidence of having had exposure to a series of courses in this supporting field.

- New concentration available in Spanish/English Translation requiring 12 hours of core courses

Reason:

This concentration area permits students with advanced Spanish/English language competence the opportunity to acquire translation and interpretation skills. Such skills enhance a variety of academic majors.

- New concentration in Religious Studies requiring 18 hours of coursework

Reason:

This program is designed to meet the needs of students who are interested in learning more about religious concepts. The program provides a broad, interdisciplinary framework within which students can take coursework to explore the nature of religion and its impact upon human culture, past and present. Courses are academic and non-sectarian in nature.

6. Bachelor of Music 123 123*
 *Theory/Composition hours raised from 17 to 21

Reason:

This change relates to the increase in credit hours in the four required composition courses; i.e., from two to three credit hours. The content of these courses was too extensive to fit within the 2-credit hour framework.

7. Bachelor of Science in Allied Health Sciences 136 133

Reason:

This change corrects an error in total hours approved for this degree by the Coordinating Board which appeared in the 1981-83 Catalog.

Degree Changes - Cont'd

8. Bachelor of Science in the Sciences 135 135**
 ** Advanced hours requirement raised from 39 to 45

Reason:

Increased demands on graduates by graduate/professional schools and industry dictated this shift of requirements from the lower-division to the upper-division.

ADMISSION REQUIREMENTS CHANGES

1. Students graduating in the upper quarter of their high school classes will now be admitted irrespective of their SAT, ACT or equivalent test scores.

Reason:

Experience has shown that high school rank is the single best predictor of college success. Students in the top quarter have consistently done well here and we wish to avoid the stigma of provisional admission for such students.

2. The required minimum score on the Prueba de Aptitud Academica (PAA for Spanish-speaking international students has been raised to 1000.

Reason:

Recent studies by the College Entrance Examination Board indicate a greater spread between SAT and PAA scores than was previously assumed to be the case. This change helps us to more nearly evaluate domestic and international students on equivalent bases.

3. High school students may now, upon the recommendation of their high school, be allowed to enroll in University courses for which they have the appropriate background and prerequisites.

Reason:

Recent calendar changes in local schools have resulted in many students who lack only one or two units for graduation during their final high school semester. We believe that those who are not admissible as Junior Scholars but who do meet regular admission criteria should be allowed to enroll.

PARKING AND TRAFFIC
REGULATIONS

Effective September 1, 1983

The University of Texas at El Paso

The University of Texas at El Paso
 Parking and Traffic Regulations
 Regents Meeting August
 11-12, 1983

INTRODUCTION

Pursuant to the authority granted by Chapter 51, Section 51.201 et. seq. of Title 3 of the Texas Education Code, the Board of Regents of the University of Texas System has promulgated Parking and Traffic Regulations to regulate and control parking and traffic and the use of parking facilities, provide for the issuance of vehicle identification insignia (parking permit), and provide for jurisdiction over offenses.

The general and criminal laws of the State of Texas and all City of El Paso Ordinances which govern the use of vehicles are declared to be in full force and effect on the campus of The University of Texas at El Paso. The commissioned University Police Officers are empowered and authorized to enforce these laws and parking and traffic regulations.

The University of Texas at El Paso assumes no responsibility for the care and/or protection of any vehicle or its contents at any time it is operated or parked on the campus. The operation of a motor vehicle on the campus is a PRIVILEGE granted by the University and is not an inherent right of any faculty/staff member or student. The University also reserves the right to impound any vehicle which is parked in a properly designated tow-away zone, in violation of these regulations or in such a manner as to create a hazard to pedestrians or vehicular traffic.

Article I - Definitions

- Section 1. University Campus: All property owned or under the control of The University of Texas at El Paso.
- Section 2. Central Control Zone: The Central Control Zone is that area enclosed by the manned traffic control points and any other barriers erected on access streets running into or through the University Campus.
- Section 3. Parking Area: Any area on campus which has been designated and marked for parking whether on streets or in lots.
- Section 4. Designated Parking Space: That area outlined by white painted boundary lines on the pavement of any parking area. Areas not marked by boundary lines are not parking spaces.
- Section 5. No Parking Zone: In addition to zones marked by posted signs, any yellow-painted curbs or yellow painted zones on pavements designated no parking at any time.
- Section 6. Tow-Away Zone: An area designated by an official posted sign which constitutes public notice that a vehicle parked in violation will be removed.
- Section 7. Loading Zone: A zone marked by posted signs and yellow-colored curbs or zones reserved for loading/

unloading only.

- Section 8. Vehicle: Includes automobiles, buses, trucks, trailers, motorcycles, motorbikes, motor scooters, tractors or any other self-propelled vehicle.
- Section 9. Visitor: A person who is neither a student nor a Faculty/staff member.
- Section 10. Student: Every person duly registered, enrolled and attending classes at the University, either full or part time.
- Section 11. Driver: Every person who drives, operates, or is in actual physical control of a vehicle.
- Section 12. The defined terms are in addition to the definitions and terms of the Texas Motor Vehicle Laws which shall apply on campus.

Article II
General Provisions

- Section 1. The purpose of these regulations is to facilitate the safe and orderly conduct of University business and to provide for the control of traffic and parking.
- Section 2. These regulations are subject to change during the school year should conditions warrant.
- Section 3. These regulations were recommended by the University Parking and Traffic Committee (hereafter referred to as the Committee) and approved by the President of the University of Texas at El Paso.
- Section 4. On special occasions or in emergencies, parking and traffic limitations may be imposed or changed by the University Police as conditions warrant.
- Section 5. The operation of a vehicle shall be restricted to the campus drives, streets, and parking lots.
- Section 6. The speed limit on the campus is 15 miles per hour on all drives and streets and 10 miles per hour in all parking lots.
- Section 7. It shall be a violation to commit any act prohibited by these regulations or to fail to do any act required by these regulations.
- Section 8. No person shall fail or refuse to comply with any lawful order or direction of any University Police Officer invested by law with the authority to direct, control, and regulate traffic.
- Section 9. If any part of these parking and traffic regulations

is held to be invalid, such invalidity shall not affect other provisions which can be given effect without the invalid provision, and to this end the provisions of these regulations are declared to be severable.

Article III - Registration of Vehicles

- Section 1. All motor vehicles of faculty members, staff, non-classified personnel and students, which are driven or parked on the campus must be properly registered with the University Police. Registration decals are effective from September 1 to the following August 31.
- Section 2. Faculty, staff, and non-classified personnel will register their vehicles during the special vehicle registration period in August or upon their first day of employment. Faculty, staff, non-classified personnel and disabled persons may have no more than two vehicles registered at any time during a registration year. At the time of vehicle registration, a valid Personnel Identification Card, valid driver's license, and proof of ownership (Certificate of Title or current license receipt) must be presented.
- Section 3. Students will register their vehicles during the class registration period immediately prior to the start of the academic year. Students will be required to furnish a valid driver's license, description of vehicle, current license number, and a paid fee receipt when registering a vehicle.
- Section 4. A vehicle is properly registered when the appropriate registration decal is affixed in the manner proscribed at the time of registration. Decals which are taped or affixed by unauthorized materials or displayed on a vehicle other than the vehicle to which issued will subject the holder of the decal to a University citation.
- Section 5. The person in whose name a vehicle is registered with the University Police is responsible for that vehicle at all times, while it is parked on campus.
- Section 6. Authorized individuals desiring to register a second vehicle may do so upon paying the required fee for such vehicle and complying with Section 2 of this Article. It is not permissible for one person to register the vehicle of any other person on campus. An additional registration decal entitles the holder to PARK ONLY ONE VEHICLE ON CAMPUS AT ANY GIVEN TIME.
- Section 7. The purchase of a registration decal grants the privilege of access to University property as prescribed in Article V, it does not guarantee nor imply that parking spaces will be available.

The University of Texas at El Paso
 Parking and Traffic Regulations - Cont'd
 Regents Meeting August 11-12, 1983

Section 8. An official Campus map will be available in the Traffic Office indicating the designation of the various parking areas.

Section 9. If, subsequent to original vehicle registration, a change of vehicle or residence is made, this information will be furnished to the Traffic Office, University Police. A replacement decal will be issued for a charge of \$.50 (fifty cents) upon presentation of the title transfer receipt and the return of the original decal. MUSIC COURSE FEES

The faculty of Music and the Dean of the College of Arts and Education have requested a change in the fee structure for applied music instruction. Submitted below is a proposal and the rationale for approval.

Proposal: To increase the studio fees from \$38.00 per course to \$30.00 per credit hour of applied instrumental and voice instruction. This is to become effective with Fall 1983 registration.

Rationale: The cost of applied instrumental instruction has increased considerably over the past 10 years yet the applied music fee has not been changed since 1973. The increase will tend to bring the fee closer to the additional costs involved in this instruction.

The University of Texas at San Antonio
Revisions to the Parking and Traffic Regulations Cont'd
Regents Meeting August 11-12, 1983

Section 6 - Impoundment of Vehicles

- A. The University of Texas at San Antonio reserves the right to remove and impound all vehicles parked so as to 1) obstruct ingress or egress to buildings, or 2) obstruct vehicular or pedestrian traffic. The University also reserves the right to impound vehicles registered to individuals with unpaid traffic fees after notice has been given as outlined in Article IV, Subdivision I, Section 2.
- B. The owners of such vehicles shall be responsible for payment of all cost incurred in the removal and storage of such vehicles and neither The University nor its authorized personnel shall be liable for any loss or damage resulting from such removal or storage. The term "impounding" includes the removal and storage of the vehicle in question. When an impounding violation occurs and the owner or driver of the vehicle appears on the scene before the removal by the wrecker, and the wrecker driver has either made a hookup or has signed the police report for custody of the vehicle, the following will apply:
1. The vehicle will not be impounded; and,
 2. The owner or driver will be expected to pay the wrecker a fee in lieu of towing.
- C. The owner/operator of an impounded vehicle must obtain a Vehicle Release Form from the University Police Department. All outstanding enforcement fees must be paid and sufficient owner/driver identification must be presented before the release form will be issued.

HOLIDAY SCHEDULE AND VACATION ALLOWANCE: The Appropriations Bill for fiscal year 1983-84 provides for those holidays specified in Article 4591, Vernon's Civil Statutes, as amended. Article 4591 authorizes fourteen holidays plus a holiday on each day in which a statewide election is held. The Appropriations Bill also provides for an additional three days of special leave time; specifying the day following Thanksgiving and the day before and after Christmas Day.

During the 1983-84 fiscal year, four of the specified holidays fall on a Saturday or Sunday, and, therefore, cannot be observed.

In conformity with past practice, 4½ days of State holidays provided will not be observed by the Medical Branch, but will be reallocated to vacation allowance.

Labor Day	Monday	September 5, 1983
Thanksgiving Day	Thursday	November 24, 1983

The results of the foregoing action will provide in 1983-84, 9½ holidays and special leave days and a total of 15 working days annual vacation leave for Medical Branch employees with less than two years service. Vacation accrual will, therefore, continue to be 1½ days per month of employment for this category of employee which is consistent with the practice observed for a number of years.

Each of the other categories of service will be accordingly increased, using the following schedule:

Scott Rodkey, Ph.D., Associate Professor, Department of Pathology and Laboratory Medicine, to travel to Paris, France for the period beginning May 31, 1983 through July 30, 1983, for a total of sixty-one (61) days. Dr. Rodkey will be working in the laboratory of Dr. A. D. Strosberg who is Chief of the Laboratory of Molecular Immunology at the Jaques Monod Institute (CNRS) at the University of Paris VII. Dr. Strosberg has just recently developed a new cell line which should make possible the routine production of rabbit hybridoma antibodies. The goal of Dr. Rodkey's work will be to determine the conditions for fusing, selecting, and growing these hybridomas. The successful completion of this project will provide a new cell line for hybridoma production that is unique because it can be exploited to answer numerous immunobiological and immunogenetic questions for which the rabbit is uniquely suited. Such a system could be of great benefit in studies of a number of diseases in which the rabbit is the experimental animal of choice. Dr. Rodkey's salary will continue to be paid from State funds during the period of this reassignment.
